History Strikes Back Hubert Vedrine, 2009-10-01 This translation of the French bestseller Continuer l'Histoire brings the powerful articulate message of Hubert Vedrine to an even wider audience With the astute analysis and acerbic wit for which he is famous the former French foreign minister offers an overview of world politics since the fall of the Berlin Wall Critical of both the United States and Europe he calls for a return to a more realist foreign policy rejecting the ideological notions of recent years In *History Strikes Back: How States, Nations, and Conflicts Are Shaping the 21st Century* Vedrine takes issue with idealists who believe that states are no longer necessary and that globalization and free markets will automatically make a better world for all Far from having ended history continues to present major challenges When the Eastern bloc collapsed the West was quick to believe that it had won the battle of history and that its values would prevail everywhere The ensuing years have belied that faith however In dealing with a newly multipolar world Americans have been too bellicose and Europeans naïve Vedrine shows why Westerners need to discard the illusions that have guided their international relations

for more than twenty years He presents a realistic vision for building a better world and spells out what Europeans expect from the U S administration to come The United States and Europe must partner for a new form of smart Realpolitik to guide their relations with emerging powers manage globalization and deal with environmental challenges **50 fiches**

Du névrosé d'antan à l'homme limite d'aujourd'hui Marc Hayat, 2023-06-26 La névrose n'est plus ce qu'elle était Aujourd'hui un nouveau type de fonctionnement psychique semble devenir la norme le fonctionnement limite ou borderline Cet homme limite n'est pas franchement névrosé comme l'étaient ses pères Chez lui il n'y a pas de sentiment de culpabilité il n'a pas le sens de l'avenir de son devenir in progress Il vit dans le présent dans l'action l'extrême il ressemble ces jeunes des banlieues pour qui l'horizon est le néo-futur sans que cela les plonge dans la tristesse et l'inhibition mais plutôt dans la violence brute de décharge directement pulsionnelle Cet homme limite correspond assez bien notre société post-moderne aux limites incertaines et aux mœurs d'inhibition dominées par toutes ces découvertes technologiques qui abolissent la distance créent par l'espace et le temps Le brillant sujet des Lumières aurait-il disparu S'est-il adapté cette nouvelle société ou bien est-il d'abord le fruit des catastrophes qu'il a subies au XX^e siècle Le cabinet d'un psychiatre psychanalyste est un bon observatoire de cet homme limite de la secrétaire au PDG de l'adolescent la personne que chacun parle de sa vie psychique intime et raconte sa vie au quotidien dans les entreprises dans les écoles avec ses amis sa famille ses collègues PROPOS DE L'AUTEUR Marc HAYAT est né à Tunis il vit et travaille à Paris Dans sa longue carrière de psychiatre et psychanalyste il a pu observer au quotidien le passage du bon vieux névrosé d'hier à l'inquiet homme limite d'aujourd'hui C'est cette transformation qu'il raconte dans ce livre ponctuée d'anecdotes où se mêlent intimement souvenirs personnels et vie professionnelle **Le nouvel**

équilibre mondial et les pays émergents Steve Coulom, 2012 La grave crise économique qui a suivi à partir de 2008 a entraîné l'aboutissement d'une période trouble qui avait débuté des années auparavant et a contribué à l'aggravation du phénomène. La récession économique se sont ajoutées une crise énergétique, la perte de la biodiversité, le réchauffement climatique et ses effets, la dérégulation des marchés etc. C'est donc une complète redistribution des cartes laquelle nous assistons aujourd'hui, un mouvement illustré par les révoltes sociales de plusieurs pays arabes du pourtour de la Méditerranée. Dans ce basculement du monde, l'Occident en déclin n'arrive plus à imposer son leadership ni sur le plan économique ni sur le plan politique, ce qui donne aux principaux pays émergents, sous la dénomination de BRICS (Brésil, Russie, Inde, Chine et Afrique du Sud), un rôle de plus en plus important qu'illustrent la Chine et les autres pays asiatiques. Avec 30 % d'augmentation de la population d'ici 2050, les pays émergents constituent le moteur de croissance de la planète et sont devenus les clés des questions de développement. Face à ce mouvement irréversible des changements urgents et globaux, s'imposent. Il faut tout d'abord engager d'immenses efforts technologiques pour transformer les institutions internationales (FMI, ONU, OMC) et leur gouvernance afin de construire avec les pays émergents un avenir économique et énergétique durable. Cette transformation est certes douloureuse pour l'Occident dont elle change radicalement la vision du progrès centrée sur la domination politique et leur quête de richesses financières, énergétique et de ressources. C'est pourtant cet effort que l'auteur nous invite à nous exposer, un point de vue pragmatique et visionnaire où le progrès technologique occupe une part importante.

L'Afrique appartiendra-t-elle aux Africains en 2063 ?

Emmanuel Kabongo Malu, 2023-03-07 L'Union Africaine nous invite toutes et tous à contribuer à l'implémentation de son Agenda 2063, l'Afrique que Nous Voulons. Mais la stratégie adoptée par les différents gouvernements africains, leur indigne crédulité devant les promesses de soutien et la fausse expertise de l'Europe, de l'Asie, de l'Amérique et de leurs Organisations dites Internationales ou Mondiales, sans oublier la complicité coupable avec laquelle les responsables politiques offrent les richesses du sol et du sous-sol africain (le bois, le cacao, le café, le coltan, le pétrole, l'or, le gaz) et les terres agricoles aux puissances étrangères, poussent le Prof. Dr Kabongo Malu à se demander et à demander aux Africains : L'Afrique appartiendra-t-elle aux Africains en 2063 ? L'Afrique appartient-elle aux Africains ? Ce continent nous appartient-il ? La synthèse du présent et du futur nous donne ce rythme d'exploitation irresponsable, insouciant vis-à-vis des générations africaines, venir peut-on espérer que l'Afrique appartiendra encore aux Africains en 2063 ? Qu'est-ce qui en restera ? Face à ce danger, l'auteur préconise la création des États Unis d'Afrique, proposée par C. A. Diop et par M. N. Obenga. Ceci est pour lui une nécessité et une urgence.

The Century's Midnight

Clive Bush, 2010 The Century's Midnight is an exploration of the literary and political relationships between a number of ideologically sophisticated American and European writers during a mid-twentieth century dominated by the Second World War. Clive Bush offers an account of an intelligent and diverse community of people of good will transcending national ideological and cultural barriers. Although structured around five central figures, the novelist Victor Segalen, the editor Dwight Macdonald and Dorothy Norman, the cultural critic Lewis Mumford and the poet Muriel Rukeyser, the book examines a wealth

of European and American writers including Hannah Arendt Simone de Beauvoir Walter Benjamin John Dos Passos Andr Gide Henry Miller Ana s Nin George Orwell Boris Pilniak Albert Camus Jean Paul Sartre Ignacio Silone and Richard Wright The book s central theme relates politics and literature to time and narrative The author argues that knowledge of the writers of this period is of inestimable value in attempting to understand our contemporary world

A Critical Theory for the Anthropocene Nathanaël Wallenhorst,2023-09-15 This volume which is rooted in biogeophysical studies addresses conceptions of political action in the Anthropocene and the tension between a desire to accomplish the Promethean project of modernity and a post Promethean approach This work explores the idea of an anthropological mutation of political consolidation from a post Promethean togetherness to creating the capacity to act together The political thinking of the human condition developed by Hannah Arendt is important here as a resource for thinking about humanity in terms of human adventure This has three dimensions hubris the world and coexistence referring respectively to the logic of profit of the homo oeconomicus the logic of responsibility of the homo collectivus and the logic of the hospitality of the homo religatus The intellectual and political attitude outlined in this book is an extension of critical theory the work also puts forward a critique of what poses a problem in our relationship to the world and suggests how to overcome it the ultimate goal being social transformation The author propose an uprising and an anthropological consolidation of politics based on the revitalization that is brought about by the sharing of a conviviality both between humans and with what is non human The identification of conviviality as an educational paradigm to survive the Anthropocene gives us the much needed reason for hope despite this heritage of the Anthropocene In addition to Arendtian thinking this critical theory for the Anthropocene draws on the political thinking of several contemporary authors including Maurice Bellet Hartmut Rosa Andreas Weber Dominique Bourg and Christian Arnsperger This volume is of interest to researchers in the Anthropocene

Histoire de l'avenir Georges Minois, 2014-04-01 Depuis la préhistoire l'homme n'a cessé de vouloir connaître le futur et d'inventer des stratagèmes pour tenter de le maîtriser. N'était-ce pas déjà pour assurer la chasse du lendemain que nos lointains ancêtres représentaient des bisons peints sur les murs des cavernes ? Des procédés de divination inventés par les peuples de l'Antiquité aux méthodes scientifiques mises au point par les prospectivistes de notre fin de siècle les moyens de prédire l'avenir ne se ressemblent guère. Mais chaque époque a eu le besoin de faire des rêves d'avenir pour le meilleur et pour le pire. Il y a eu les faux prophètes du Moyen Âge les astrologues de la cour de la Renaissance ou encore les diseuses de bonne aventure du Grand Siècle. Et les philosophes des Lumières ont tenté leur manière de percer les grandes lignes du futur. Sans réussir à tuer l'irrationnel le magnétisme le somnambulisme et autres formes de spiritisme ont connu un succès croissant au XIX^e siècle tandis que surgissaient de nouveaux prophètes annonçant un monde meilleur. Oracles prophéties prédictions utopies toutes les anticipations que les hommes ont laborées au fil des siècles ne se sont guère réalisées mais elles sont les reflets de leurs espoirs et de leurs craintes. L'homme de 1900 se croyait à l'aube d'un siècle radieux. Celui de l'an 2000 n'y croit plus guère et si les futuristes ne prétendent plus faire mieux que prophètes astrologues et voyants continuent rassurer il faut de prédire l'avenir. Georges Minois est professeur d'histoire et membre du Centre international de recherches et d'études transdisciplinaires. Il a publié de nombreuses études sur l'histoire des mentalités religieuses.
