Review Sci Fi Dystopia:

Dystopia on Demand: Technology, Digital Culture, and the Metamodern Quest in Complex Serial Dystopias

Laura Winter, 2024-01-29 Serial storytelling has the advantage of unlocking rather than simplifying the complexities of digital culture. With their worldbuilding potential, TV series open up new artistic horizons, particularly for the dystopian genre. Situated at the nexus of dystopia, complex TV, and a metamodern cultural logic, *Dystopia on Demand: Technology, Digital Culture, and the Metamodern Quest in Complex Serial Dystopias* offers readers novel insights into the dynamics of serial dystopias in the contemporary streaming landscape. Introducing the term complex serial dystopias to describe series that allow audiences to engage with the dystopian premise from multiple angles, the book examines four Anglo-American series including *Black Mirror*, *Mr. Robot*, *Westworld*, and *Kiss Me First*. The in-depth analyses trace the variety of ways in which these series offer critical reflections on the human-technology entanglement in digital culture. **The New Routledge**

Companion to Science Fiction Mark Bould, Andrew M. Butler, Sherryl Vint, 2024-06-13 The *New Routledge Companion to Science Fiction* provides an overview of the study of science fiction across multiple academic fields. It offers a new conceptualisation of the field today, marking the significant changes that have taken place in sf studies over the past 15 years. Building on the pioneering research in the first edition, the collection reorganises historical coverage of the genre to emphasise new geographical areas of cultural production and the growing importance of media beyond print. It also updates and expands the range of frameworks that are relevant to the study of science fiction. The periodisation has been reframed to include new chapters focusing on science fiction produced outside the Anglophone context, including South Asian, Latin American, Chinese, and African diasporic science fiction. The contributors use both well-established critical and theoretical approaches and embrace a range of new ones, including biopolitics, climate crisis, critical ethnic studies, disability studies, energy humanities, game studies, medical humanities, new materialisms, and sonic studies. This book is an invaluable resource for students and established scholars seeking to understand the vast range of engagements with science fiction in scholarship today. Chapter 39 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution-NonCommercial-NoDerivatives 4.0 International license. **Global Science Fiction**

Gary Westfahl, 2025-06-09 Science fiction represents a diverse community of writers and readers that spans the entire world. This collection provides a global tour of the genre with essays about Latin American, European, African, Arabic, Indian, Japanese, and Chinese science fiction, providing insights about how writers around the world have explored and reinvigorated the genre. Essays by prominent critics from five continents inform about particular cultures and analyze representative texts by authors such as Tobias S. Buckell, Lourenço Mutarelli, Stanislaw Lem, Masande Ntshanga, Tawfiq Al Hakim, Anil Menon, and Cixin Liu. The contributing scholars examine how national experiences have shaped these narratives, which often differ strikingly from Anglo-American science fiction. An introductory survey of foreign language science fiction in the United States

endeavors to explain why so many of these texts have remained unknown to Anglophone readers An extensive bibliography lists numerous resources for further study of science fiction from various parts of the world

Contemporary Dystopian Fiction for Young Adults Balaka Basu, Katherine R. Broad, Carrie Hintz, 2013-05-02

Winner of the Children's Literature Association Edited Book Award. From the jaded, wired teenagers of M.T. Anderson's *Feed* to the spirited young rebels of Suzanne Collins' *The Hunger Games* trilogy, the protagonists of Young Adult dystopias are introducing a new generation of readers to the pleasures and challenges of dystopian imaginings. As the dark universes of YA dystopias continue to flood the market, *Contemporary Dystopian Fiction for Young Adults* offers a critical evaluation of the literary and political potentials of this widespread publishing phenomenon. With its capacity to frighten and warn, dystopian writing powerfully engages with our pressing global concerns: liberty and self-determination, environmental destruction, and looming catastrophe; questions of identity and justice; and the increasingly fragile boundaries between technology and the self. When directed at young readers, these dystopian warnings are distilled into exciting adventures with gripping plots and accessible messages that may have the potential to motivate a generation on the cusp of adulthood. This collection enacts a lively debate about the goals and efficacy of YA dystopias with three major areas of contention: do these texts reinscribe an old didacticism or offer an exciting new frontier in children's literature? Do their political critiques represent conservative or radical ideologies? And finally, are these novels high-minded attempts to educate the young or simply bids to cash in on a formula for commercial success? This collection represents a prismatic and evolving understanding of the genre, illuminating its relevance to children's literature and our wider culture.

Margaret Atwood's Dystopian Fiction Sławomir Kuźnicki, 2017-05-11. This volume details Margaret Atwood's dystopian novels through the themes of the ambivalent ethics of science and technology, the position of women in the male dominated world and the ambiguous role played by religion and spirituality. The book's unique and original approach places Atwood's fiction within the contemporary world with all the problems of our fast changing reality. Furthermore, it provides an excellent reading of her dystopias in a broader humanist context with an emphasis on the social, cultural and political issues that have been important for both her, the writer, and us, the readers.

Literary Materialisations and Interferential Reading Ingrid Hotz-Davies, Martin Middeke, Christoph Reinfandt, 2025-03-28. This book traces literature's long history of repurposing representational language use for performative material effects. It brings this tradition into dialogue with the recent material turn in literary and cultural theory which seeks to supplant or at least rethink the foundational influence of the linguistic turn in the field. Drawing on a variety of cutting edge new materialist theories, this book programmatically outlines the contours of a methodology of Interferential Reading that is then brought to bear on examples ranging from Shakespeare, Donne, Keats and Tennyson to Northern Irish poets, Colette Bryce and Sinéad Morrissey and Scottish poet Kathleen Jamie, from British thing essays to J G Ballard, John Berger, Nicola Barker, Richard Powers, Colum McCann, Tim Crouch, Hanya Yanagihara and Korean writer Han Kang, winner of the 2024 Nobel Prize for literature, and from the history of theatrical bodies to the intermedial as well as affective textures in very recent experimental theatre, live theatre, broadcasting and media art.
