The ^AAnatomy of Deception Sara E. Gorman,2024-07-19 Veteran health writer Sara Gorman unveils the root of medical mistrust in America and offers actions for rebuilding faith in medicine as a way for healing the schisms of modern day American democracy **Shame the Devil** Wayne J. Guglielmo,2023-04-15 When the press loses sight of truth and falls prey to bias American press critics push back to safeguard our free and democratic nation Journalists are no strangers to criticism and some have even seen disagreements turn to outrage and acts of violence There is another history of press criticism though This one as a rule doesn't resort to physical threat or denunciation Nevertheless it can be merciless when critics think the press has become too slanted in one direction has fallen short of some ideal is too concentrated for its own good or seems to be underreporting or ignoring some critical story of the day Shame the Devil is a sweeping look at this other history Beginning with Walter Lippmann rightly regarded as the first modern press critic Shame the Devil provides a chapter by chapter profile and analysis of his successors Many critics work within the profession of journalism while some consider it from the outside These include George Seldes A J Liebling Ben Bagdikian Reed Irvine Neil Postman and Noam Chomsky A concluding chapter brings together a diverse group of contemporary critics including Sharyl Attkisson Brooke Gladstone Eric Deggans Amy Goodman Janine Jackson and Candace Owens Merging history biography and a candid analysis of various critical points of view Shame the Devil moves from press commentary in the bitter aftermath of World War I to the head spinning paradoxes of the post truth era Throughout some of America's best critics contend with both the big events of their day and the big issues of journalism to ask the always vital question How can the press help to create and sustain a more democratic society **The Silicon Jungle** Shumeet Baluja,2015-08-25 A suspenseful story about the dangers of unknowingly revealing our most intimate thoughts and actions online What happens when a naive intern is granted unfettered access to people's most private thoughts and actions Stephen Thorpe lands a coveted internship at Ubatoo an Internet empire that provides its users with popular online services from a search engine and e mail to social networking When Stephen's boss asks him to work on a project with the American Coalition for Civil Liberties Stephen innocently obliges believing he is mining Ubatoo's vast databases to protect people unfairly targeted in the name of national security But nothing is as it seems Suspicious individuals surface doing all they can to access Ubatoo's wealth of confidential information This need not require technical wizardry simply knowing how to manipulate a well intentioned intern may be enough The Silicon Jungle is a cautionary fictional tale of data mining's promise and peril Baluja raises ethical questions about contemporary technological innovations and how minute details can be routinely pieced together into rich profiles that reveal our habits goals and secret desires all ready to be exploited **The Broadcast Century and Beyond** Robert L Hilliard,Michael C Keith,2012-10-02 The Broadcast Century and Beyond is a popular history of the most influential and innovative industry of the century The story of broadcasting is told in a direct and informal style blending personal insight
