The ancient Chinese were also skilled in the art of making pottery. They created beautiful ceramics that were not only functional but also works of art. Many of these ancient Chinese pottery pieces are still admired and studied today.

In addition to their inventions, the ancient Chinese also made significant advancements in medicine. They believed in the balance of yin and yang in the body and used herbal remedies to treat illnesses. Acupuncture, a practice where thin needles are inserted into the skin at specific points, was also developed in ancient China.
