Child as Citizen Giuliana Fenech,2025-08-15 Contributions by Daniela Brockdorff Nina Christensen Jill Coste Katrin Dautel Justyna Deszcz Tryhubczak Giuliana Fenech Naomi Hamer Irena Barbara Kalla Anne Klomberg Sonali Kulkarni Elizabeth Leach Leung Ann Marie Murnaghan Emily Murphy Emilie Owens Nicola Parker Patrycja Poniatowska Meg Rosoff and Farriba Schulz Child as Citizen Agency and Activism in Children s Literature and Culture addresses children s and young adult agency and activism across literature and culture demonstrating how these forces influence child citizenship Contributors to this volume highlight the agentic voices and activist practices that are growing across all spheres of young people s lives as well as the challenges to active citizenship that children growing up in unjust sociopolitical contexts face The volume is interdisciplinary and draws on the sociology of childhood children s literature studies youth culture studies media technology and cultural studies and Anthropocene ecofeminist and disability studies Agency occurs in and around literature and storytelling and this collection establishes how it is always influenced by identity as well as geopolitics how it is both subjective and collective how it is cultural and embodied and how like citizenship it is not a static status but rather an ongoing negotiation In this collection contributors invite readers to consider agency as a system of relations between

children themselves between children and adults children and institutions and children and nation states as well as between children and the nonhuman This book reviews the interconnectedness between these relationships and attempts to untangle some of the complications that emerge Global Literary Studies Diana Roig-Sanz,Neus Rotger,2022-12-05 While the very existence of global literary studies as an institutionalised field is not yet fully established the global turn in various disciplines in the humanities and the social sciences has been gaining traction in recent years This book aims to contribute to the field of global literary studies with a more inclusive and decentralising approach Specifically it responds to a double demand the need for expanding openness to other ways of seeing the global literary space by including multiple literary and cultural traditions and other interdisciplinary perspectives in the discussion and the need for conceptual models and different case studies that will help develop a global approach in four key avenues of research global translation flows and translation policies the post 1989 novel as a global form global literary environments and a global perspective on film and cinema history Gathering contributions from international scholars with expertise in various areas of research the volume is structured around five target concepts space scale time connectivity and agency We also take gender and LGBTQ perspectives as well as a digital approach **TikTok for Authors** , Discover how to leverage the power of TikTok to reach new readers build a community and sell more books This book is specifically tailored for non fiction authors wanting to learn TikTok s unique language and trends to effectively promote their published works *The Digital Future of English* Simone Murray,2025-07-18 More than any other academic discipline literary studies is the creation of print culture How then can it thrive in the digital era Early 1990s predictions of the book s imminent demise presented a simplistic either or choice between the legacy of moribund print and triumphalist digital technology Yet we have grown to experience the two media as complexly interdependent and even complementary Clearly digital does not kill print But literary studies in the digital era cannot simply resume business as usual It is urgently necessary to reconsider the discipline s founding assumptions in light of digital technology The digital era prompts a rethinking of literary studies object of study as well as its methods theories audiences and pedagogical practices What counts as literature necessarily shifts in an age of proliferating born digital texts and do it yourself DIY online publication Where should literary studies sit institutionally and how might it graft contextually oriented social sciences methods onto its traditionally humanistic mode of textual analysis Why should literary study continue to marginalize emotional responses to texts when online communities bond via readerly affect Who is the audience for literary criticism in an age where expertise is routinely challenged yet communication with global book loving publics has never been technologically easier Finally how can we utilize digital tools to rejuvenate literary studies pedagogy and help English staff better connect with millennial age students Literary studies has been convulsed for decades by debates over electronic literature and more recently digitally aided distant reading But these discussions still mostly confine themselves to demarcating our proper object of study We need to think more expansively about digital technology s impact on the

underpinning tenets of the discipline Literary Media Studies is pitched at fellow literary scholars book historians media theorists cultural sociologists digital humanists and those working at the interface of these converging disciplines It models constructive engagement with contemporary digital culture Most importantly it brings a burst of sorely needed optimism to the question of literary studies digital future
