

Mr. Dominique Strauss-Kahn
Managing Director
International Monetary Fund
Washington DC

Athens, May 3, 2010

Dear Mr. Strauss-Kahn:

The attached Memorandum of Economic and Financial Policies (MEFP) outlines the economic and financial policies that the Greek government and the Bank of Greece, respectively, will implement during the remainder of 2010 and in the period 2011–2013 to strengthen market confidence and Greece's fiscal and financial position during a difficult transition period toward a more open and competitive economy. The government is fully committed to the policies stipulated in this document and its attachments, to frame tight budgets in the coming years with the aim to reduce the fiscal deficit to below 3 percent in 2014 and achieve a downward trajectory in the public debt-GDP ratio beginning in 2013, to safeguard the stability of the Greek financial system, and to implement structural reforms to boost competitiveness and the economy's capacity to produce, save, and export. In this regard, the government is also fully and equally committed to the policies stipulated in the Decision and Recommendation issued by the EU Council on February 16, 2010.

The government is strongly determined to lower the fiscal deficit, including by achieving higher and more equitable tax collections, and constraining spending in the government wage bill and entitlement outlays, among other items.

In view of these efforts and to signal the commitment to effective macroeconomic policies, the Greek government requests that the Fund supports this multi-year program under a Stand-By Arrangement (SBA) for a period of 36 months in an amount equivalent to SDR26.4 billion (3.212 percent of quota; €30 billion). A parallel request for financial assistance to euro area countries for a total amount of €80 billion has been sent.

The implementation of the program will be monitored through quantitative performance criteria and structural benchmarks as described in the attached MEFP and Technical Memorandum of Understanding (TMU). There will be twelve quarterly reviews of the program supported under the SBA by the Fund, in coordination with the European Commission and the ECB, to begin with the first review that is expected to be completed in the course of the third calendar quarter of 2010, and then every quarter thereafter until the last quarterly review envisaged to be completed during the second calendar quarter of 2013, to assess progress in implementing the program and reach understandings on any additional measures that may be needed to achieve its objectives. Each review will include an in-depth assessment of program financing in light of the joint financing of this program by the bilateral funding arrangement of the euro area member states for Greece. The Greek authorities believe that the policies set forth in the attached memorandum are adequate to achieve the objectives of the economic program, and stand ready to take any further measures that may become appropriate for this purpose. The authorities will consult with the Fund in accordance with its policies on such consultations, and with the European

Globalizing in Hard Times Leonardo Martinez-Diaz, 2011-03-15 In *Globalizing in Hard Times* Leonardo Martinez Diaz examines the sudden and substantial increase in cross border ownership of commercial banks in countries where bank ownership had long been restricted by local rules Many parties the World Bank and the IMF the world s largest commercial banks their home governments and their negotiators had been pushing for a relaxation of ownership rules since the early 1980s and into the 1990s when bank profitability levels in advanced industrial societies went flat In their hunt for higher returns on assets the major banks looked to expand business overseas but through the mid 1990s their efforts to impose more liberal ownership regimes in nationalist countries proved largely unsuccessful Martinez Diaz illustrates the ongoing political resistance to liberalized ownership rules in Mexico Indonesia Brazil and South Korea He then demonstrates the importance of a series of events the Mexican crisis and the Brazilian banking shock in 1994 1995 and the Asian crisis of 1997 1998 among them in finally knocking down barriers to foreign ownership of banks After these upheavals policymakers who were worried about their political survival and who were sometimes pressed by the IMF and foreign governments reshaped the regulatory environment in key emerging markets Self proclaimed global banks eagerly grasped the opportunity to expand their operations worldwide but after the initial shock domestic politics reasserted themselves often diluting the new liberal rules

Bank Indonesia and the Crisis Soedradjad Djiwandono, 2005 This important book is set to be a key document for those interested in Indonesia s recent economic and political history There have been many unanswered questions about exactly how the regional currency crisis snowballed into a full scale banking crisis in Indonesia coupled with a total loss of credibility within a short time This record by the official in the midst of the banking crisis the ex governor of Bank Indonesia gives a fuller and intriguing picture of the events including the actions of President Soeharto as well as a balanced account of the much criticised interventions by the International Monetary Fund The author also analyses the lessons for monetary policy to avoid future such crisis This is essential reading for economists and Indonesia watchers

Governance in Indonesia Hadi Soesastro, Anthony L. Smith, Mui Ling Han, 2002-12-26 When Megawati Soekarnoputri became the President of Indonesia in July 2001 there were strong expectations But so far fundamental economic and political reforms have yet to be undertaken The deadly Bali bombings on 12 October 2002 presented a wake up call for the Megawati government Terrorism on an international scale had now hit home Now more than ever there is greater urgency on the part of the Megawati government to tackle the myriad of political and economic problems plaguing the country This volume features some of the major issues that faced the Megawati government even before the devastating Bali attacks The contributors include academics practitioners and activists offering a diversity of views

Parliament. Joint Committee on Human Rights,2004 The Joint Committee on Human Rights examined the implementation of the UN International Covenant on Economic Social and Cultural Rights in the UK Domestic legislation protects many of the economic social and cultural rights with the Covenant itself having little impact in UK

domestic law The Committee believes that there is scope for incorporating further protection of rights in the UK by enshrining some of the guarantees contained in the Covenant Further that for the Covenant rights to be effective they should be part of a framework for government policy development and that Government along with the Commission for Equality and Human Rights should develop ways of measuring the progress of these rights The Committee also recommends that explanatory notes to Bills should include discussion of the Bills compatibility with Covenant rights which is a way of enhancing the scrutiny of proposed Government legislation Furthermore the Committee recommends the introduction of an Equality Bill to address the concerns of discrimination faced by ethnic minorities and persons with disabilities in employment housing and education
