Higher Education Access in the Asia Pacific Christopher S. Collins, Prompilai Buasuwan, 2017-08-23 This edited volume offers empirical evaluative and philosophical perspectives on the question of higher education as a human right in the Asia Pacific Throughout the region higher education has grown rapidly in a variety of ways Price accessibility mobility and government funding are all key areas of interest which likely shape the degree to which higher education may be viewed as a human right Although enrollments continue to grow in many higher education systems protests related to fees and other equity issues continue to grow This volume will include scholarly perspectives from around the region for a more extensive understanding of higher education as a human right in the Asia Pacific Modern Islamic Authority and Social Change, Volume 2 Masooda Bano, 2018-03-07 Maps the new Islamic authority platforms emerging in the West and their relationship with older centres of learning in a three fold typology Neo Traditionalists Neo Legalists and Neo Conservatives Trans People in Higher Education Genny Beemyn, 2019-02-01 Addresses the experiences of trans college students faculty and staff in a single volume for the first time While more trans students faculty and staff have come out on US college campuses today than ever before many still report enduring harassment and discrimination Others avoid disclosing their gender identity because they do not feel safe or comfortable at their schools This groundbreaking book is the first to address their experiences in a single volume Genny Beemyn brings together personal narratives and original research to give readers both individual and large scale perspectives which provide unprecedented insight into the experiences of trans people in higher education These contributions reveal that despite an improving environment trans people continue to face widespread interpersonal and institutional opposition on campuses across the country Some of the first published research focusing on nonbinary trans undergraduates and trans graduate students is included here in addition to the most comprehensive research to date of trans students at women s colleges and of trans academics Trans People in Higher Education also examines the sexual health of trans students the treatment of trans people by individuals with institutional authority and the strategies and lessons learned from one college that successfully became more trans inclusive Weaving personal narratives and research studies together in ways that highlight the full diversity of trans individuals Trans People in Higher Education serves as an urgent call to action for higher education to play a leadership role in catalyzing broad social change around trans rights In the process Beemyn offers an invaluable resource for creating a trans welcoming and trans supportive environment on college and university campuses Lynn Pasquerella President Association of American Colleges and Universities PRAISE FOR TRANS PEOPLE IN HIGHER EDUCATION Beemyn s advocacy and research on trans people in higher education is groundbreaking and this edited volume is no exception Through a mix of narratives and personal accounts as well as the findings of research studies by major scholars in the field the book paints a rich portrait of the variety of trans identities and experiences on college campuses today along with recommendations for how campuses can create a

more inclusive environment The volume is an extraordinary resource for all who are committed to creating campus communities that are welcoming and affirming for trans students faculty and staff and for those who simply want to learn more about the experiences of trans people on college campuses today Kristin G Esterberg President State University of New York at Potsdam For more than two decades Genny Beemyn has been at the forefront of higher education research and policy advocacy regarding trans issues Beemyn has given us yet another stellar contribution to those fields with this new anthology which showcases an impressive cohort of emerging voices as well as a burgeoning body of high quality scholarship It s the best most comprehensive overview to date on the timely topics it addresses Susan Stryker author of Transgender History Revised Edition The Roots of Today s Revolution Trans People in Higher Education combines the powerful accessibility of compelling personal stories with the complex and often harsh findings of qualitative and quantitative research to demonstrate the continued need for trans affirming campuses from policy to classroom engagement Despite more than two decades of positive changes in academic institutions trans and nonbinary students faculty and staff continue to struggle for acceptance and equal access This timely book shows that in challenging the constricts of the binary gender system helping others develop skills for culturally competent interactions and expanding campus wide policies these individuals offer academia the best gift of all learning opportunities and the inspiration to do better Willy Wilkinson author of Born on the Edge of Race and Gender A Voice for Cultural Competency [Lifting the Veil on Enrollment Management](#) Stephen J. Islamizing Intimacies Nancy J. Smith-Hefner, 2021-05-31 One of the great transformations presently sweeping the Muslim world involves not just political and economic change but the reshaping of young Muslims styles of romance courtship and marriage Nancy J Smith Hefner takes up the personal lives and sexual attitudes of educated Muslim Javanese youth in the city of Yogyakarta to explore the dramatic social and ethical changes taking place in Indonesian society Drawing on more than 250 interviews over a fifteen year period her vivid well crafted ethnography is full of insights into the real life struggles of young Muslims and framed by a deep understanding of Indonesia s wider debates on gender and youth culture The changes among Muslim youth reflect an ongoing if at times unsteady attempt to balance varied ideals ethical concerns and aspirations On the one hand growing numbers of young people show a deep and pervasive desire for a more active role in their Islamic faith On the other even as they seek a more self conscious and scripture based profession of faith many educated youth aspire to personal relationships similar to those seen among youth elsewhere a greater measure of informality openness and intimacy than was typical for their parents and grandparents generations Young women in particular seek freedom for self expression employment and social fulfillment outside of the home Smith Hefner pays particular attention to their shifting roles and perspectives because it is young women who have been most dramatically

affected by the upheavals transforming this Muslim majority country Although deeply personal the changing aspirations of young Muslims have immense implications for social and public life throughout Indonesia The fruit of a longitudinal study begun shortly after the fall of the authoritarian New Order government and the return to democracy in 1998 1999 the book reflects Smith Hefner's nearly forty years of anthropological engagement with the island of Java and her continuing exploration into what it means to be both modern and Muslim The culture of the new Muslim youth the author shows through all its nuances and variations reflects the inexorable abandonment of traditions and practices deemed incompatible with authentic Islam and an ongoing and profound Islamization of intimacies *Resources in Education*, 1978

Spy Schools Daniel Golden, 2024-08-06 An expos revealing how academia has become the center of foreign and domestic espionage and why that is troubling news for our nation's security Grounded in extensive research and reporting Pulitzer Prize winning journalist Daniel Golden's *Spy Schools* reveals how academia has emerged as a frontline in the global spy game In a knowledge based economy universities are repositories of valuable information and research where brilliant minds of all nationalities mingle freely with few questions asked Intelligence agencies have always recruited bright undergraduates but now in an era when espionage increasingly requires specialized scientific or technological expertise they're wooing higher level academics not just as analysts but also for clandestine

operations Golden uncovers unbelievable campus activity from the CIA placing agents undercover in Harvard Kennedy School classes and staging academic conferences to persuade Iranian nuclear scientists to defect to a Chinese graduate student at Duke University stealing research for an invisibility cloak and a tiny liberal arts college in Marietta Ohio exchanging faculty with China's most notorious spy school He shows how relentlessly and ruthlessly this practice has permeated our culture not just inside the US but internationally as well Golden blows the lid off this secret culture of espionage and its consequences at home and abroad Whether you are a teacher student or parent Daniel Golden's closely researched account of the assault on our academic freedoms by home grown intelligence services is timely and shocking John le Carr It's real life Spy vs Spy a fascinating book Washington Post

Counterrevolution Stephen Steinberg, 2022-01-18 In *Black Reconstruction* W E B Du Bois wrote The slave went free stood for a brief moment in the sun then moved back again toward slavery His words echo across the decades as the civil rights revolution marked by the passage of landmark civil rights laws in the 60s has seen those gains steadily and systematically whittled away As history testifies revolution nearly always triggers its antithesis counterrevolution In this book Steinberg provides an analysis of this backlash tracing the reverse flow of history that has led to the current national reckoning on race Steinberg puts counterrevolution into historical and theoretical perspective exploring the victim blaming and colorblind discourses that emerged in the post segregation era and undermined progress toward racial equality and led

to the gutting of affirmative action This book reflects Steinberg s long career as a critical race scholar culminating with his assessment of our current moment and the possibilities for political transformation **This Is Political Philosophy** Alex Tuckness,Clark Wolf,2016-12-16 This is Political Philosophy is an accessible and well balanced introduction to the main issues in political philosophy written by an author team from the fields of both philosophy and politics This text connects issues at the core of political philosophy with current live debates in policy politics and law and addresses different ideals of political organization such as democracy liberty equality justice and happiness Written with great clarity This is Political Philosophy is accessible and engaging to those who have little or no prior knowledge of political philosophy and is supported with supplemental pedagogical and instructor material on the This Is Philosophy series site Available at <https://www.wiley.com/en-us/thisisphilosophy/thisispoliticalphilosophy/anintroduction> *Teaching to Change the World* Jeannie Oakes,Martin Lipton,Lauren Anderson,Jamy Stillman,2018-01-29 Teaching to Change the World is an up to the moment engaging social justice oriented introduction to education and teaching and the challenges and opportunities they present Both foundational and practical the chapters are organized around conventional topics but in a way that consistently integrates a coherent story that explains why schools are as they are Taking the position that a hopeful democratic future depends on ensuring that all students learn the text pays particular attention to inequalities associated with race social class language gender and other social categories and explores teachers role in addressing them This thoroughly revised fifth edition remains a vital introduction to the profession for a new generation of teachers who seek to become purposeful knowledgeable practitioners in our ever changing educational landscape for those teachers who see the potential for education to change the world Features and Updates of the New Edition Fully updated Chapter 1 The U S Schooling Dilemma reflects our current state of education after the 2016 U S presidential election First person observations from teachers including first year teachers continue to offer vivid authentic pictures of what teaching to change the world means and involves Additional coverage of the ongoing effects of Common Core highlights the heated public discourse around teaching and teachers and charter schools Attention to diversity and inclusion is treated as integral to all chapters woven throughout rather than tacked on as separate units Digging Deeper resources on the new companion website include concrete resources that current and future teachers can use in their classrooms Tools for Critique provides instructors and students questions prompts and activities aimed at encouraging classroom discussion and particularly engaging those students least familiar with the central tenets of social justice education **Death in Dublin During the Era of James Joyce's Ulysses** Patrick Callan,2024-09-27 The funeral of Paddy Dignam in James Joyce s Ulysses serves as the pivotal event of the Hades episode This volume explores how Dignam s interment in Glasnevin Cemetery allowed Joyce the freedom to consider the conventions rituals and superstitions associated with death and burial in Dublin Integrating the words and characters of Ulysses with its figurative locale the book looks at the presence of Dublin in Ulysses and Ulysses in Dublin It emphasises the highly visible public role assigned to death in Joyce

s world while also appreciating how it is woven into the universe of Ulysses The study examines the role of Glasnevin Cemetery where the Joyce family plot was opened in 1880 and remained in use for eight decades as well as the social and medical problems associated with life in Dublin a city divided by class status wealth and health Nineteen burials took place in Glasnevin on 16 June 1904 and the analysis of this group illuminates the role of undertakers and insurers along with the importance of memorialisation This book is an important contribution to Joyce and Irish studies as well as to international studies related to the treatment of the dead body and the development of garden cemeteries Diverse Families, Desirable Schools Mira Debs, 2021-03-09 In Diverse Families Desirable Schools Mira Debs offers a richly detailed study of public Montessori schools which make up the largest group of progressive schools in the public sector As public Montessori schools expand rapidly as alternatives to traditional public schools the story of these schools Debs points out is a microcosm of the broader conflicts around public school choice Drawing on historical research interviews with public Montessori educators and ethnographic case studies Debs explores the forces that pull intentionally diverse progressive schools toward elitism At the heart of Debs s book is a thoughtful analysis of the notion of fit between parents and schools an idea that is central to school choice which is often marketed as an opportunity for parents to find the perfect fit for their kids By exploring parents varied motivations in choosing these schools and observing how families experience or fail to experience a good fit after having chosen a particular school Debs makes an original contribution to the literature on school choice and sheds light on the dilemmas entailed in maintaining diversity in progressive charter and magnet schools **Engineering** ,1912
