Contested Valor Cameron D. McCoy, 2023-11-16 *Contested Valor* is a challenging examination of the use and status of black Marines in United States military service during the Cold War era. These pioneering men experienced contested military integration as well as multiple forms of institutional and social opposition which called their humanity, manhood, and rights to full citizenship into question. Efforts to undermine their service compromised their right to be counted among the elite and sidelined their story to the fringes of Marine Corps and U.S. history. Cameron McCoy describes the factors and pressures leading to the racial turbulence that surfaced in the Marine Corps from the end of World War II through Vietnam and the measures taken by civilian and Marine officials to maintain and restore organizational integrity based on a foundation of white supremacy. He examines the psychological effects of institutionalized racism on African American Marines during the Vietnam era and the emergence of a new generation of black men unwilling to submit to the traditions of a Jim Crow Marine Corps. By exploring the realities American society constructed about black Marines, this work calls attention to the diverse ways in which these men coped within a strict prejudiced organization and found greater purpose as U.S. Marines despite an embattled image. *Contested Valor* weaves the experiences of black Americans in the armed forces into the larger tapestry of the American racialist past and aptly captures the dilemmas, triumphs, and pitfalls that the first African American Marines encountered during the contentious eras of World War II, Korea, and Vietnam. McCoy explores the creation of organizational policies designed to minimize their footprint as U.S. Marines until the social experiment of military integration faded and illustrates the discriminatory practices that further delegitimized their wartime reputation. McCoy demonstrates that black Marines' absence from the historical record has been compounded by the negligence and oversight of past historians as the Marine Corps reckons with its racist past and its first black Marines.

The Transnational Politics of Corporate Governance Regulation Henk Overbeek, Bastiaan van Apeldoorn, and Andreas Nölke, 2007-04-30. This ambitious volume explores the politics of recent changes in corporate governance regulation and the transnational forces driving the process. Corporate governance has in the 1990s become a catchphrase of the global business community. The Enron collapse and other recent corporate scandals, as well as growing worries in Europe about the rise of Anglo-Saxon finance, have made issues of corporate governance the subject of political controversies and of public debate. The contributors argue that the regulation of corporate governance is an inherently political affair. Given the context of the deepening globalization of the corporate world, it is also increasingly a transnational phenomenon. In terms of the content of regulation, the book shows an increasing reliance on the application of market mechanisms and a tendency for corporations themselves to become commodities. The emerging new mode of regulation is characterized by increasing informalization and

by forms of private regulation These changes in content and mode are driven by transnational actors first of all the owners of internationally mobile financial capital and their functionaries such as coordination service firms as well as by key public international agencies such as the European Commission The Transnational Politics of Corporate Governance Regulation will be of interest to students and researchers of international political economy politics economics and corporate governance
