2014: The Year of Action Bepty Antoine, 2018-05-24 2014 The Year of Action By Bepty Antoine 2014 The Year of Action is a broad ranging compendium of the events conflicts and progress recently seen throughout the world Written from the perspective of an immigrant with a particular heart for the poor this unique tome focuses on the influential work of two world leaders United States President Barack Obama and Pope Francis Bepty Antoine utilizes historical and cultural knowledge to frame events within a larger context presenting the actions both men have taken to further social justice issues often connecting these concerns to environmental crises Drawing on the tenants of their Christian faith both the President and the Pope have sought to defend immigrants refugees and the global poor and their efforts often in the face of extreme opposition are carefully detailed and celebrated 2014 The Year of Action focuses on the impressive achievements of two modern heroes and places their struggles for progress within the wider context of current events and popular culture Imperialism in the Twenty-First Century John Smith, 2016-01-22 Provides an examination of the relationship between the core capitalist countries and the rest of the world in the age of neoliberal globalization Deploying a Marxist methodology Smith begins by tracing the production of certain iconic commodities the T shirt the cup of coffee and the iPhone and demonstrates how these generate enormous outflows of money from the countries of the Global South to transnational corporations headquartered in the core capitalist nations of the Global North From there Smith draws on his empirical findings to theorize the current shape of imperialism He argues that the core capitalist countries need no longer rely on military force and colonialism although these still occur but increasingly are able to extract profits from workers in the Global South through market mechanisms and by aggressively favoring places with lower wages the phenomenon of labor arbitrage From publisher description **Future Histories** Lizzie O'Shea, 2019-05-14 The key to understanding technology lies not in the future but in the past That s the contention of Lizzie O Shea s Future Histories a grand tour through past and present to explore the practical and sometimes revolutionary possibilities of our digital age Searching for new ways to think about our networked world O Shea asks what the Paris Commune can tell us about the ethics of the Internet and finds inspiration in the revolutionary works of Thomas Paine and Frantz Fanon She examines Elon Musk s futuristic visions only to find them mired in a musty Victorian era utopianism Instead of current day capitalist visionaries O Shea returns us to the Romantic age of wonder when art and science were as yet undivided narrating the collaboration between Ada Lovelace the brilliant daughter of Lord and Lady Byron and polymath Charles Babbage who together designed the world s first computer In our brave new world of increased surveillance biased algorithms and fears of job automation O Shea weaves a usable past we can employ in the service of emancipating our digital tomorrows *Fringe Finance* Rob Aitken, 2015-02-11 The most recent conversations about financial instability in International Political Economy have addressed the ongoing financial spasms of the past five years a global financial spasm unleashed by the 2008 subprime debacle ongoing Eurozone instability and general price

volatility in securities markets globally. Alongside and as part of these broader spasms however has been another key trend: the intensifying reach of global financial markets into and among those populations which live at its very edges. There are increasing and increasingly profitable experiments which are explicitly targeted to those without regular access to full or formalized financial practices. This book places the practices of fringe finance in critical context by situating them within a larger set of discussions in the field. Most importantly this book is part of a much broader attempt in IPE to rethread the study of finance to questions of cultural and social theory in a meaningful manner. Finance is increasingly subjected to innovative forms of social inquiry influenced by a range of diverse methods including governmentality actor network theory and cultural economy. By drawing on several strands of social theory this book contributes to this broader movement in IPE and helps open more space for the continuation of these interdisciplinary conversations. This work will be of great interest to students and scholars of IPE, development studies and economic sociology.

Remnant Christianity in a Post-Christian World W. Paul Jones, 2021-11-03. The contemporary Christian church is in critical decline both in membership and finances. All attempts at reversal are failing primarily because of the consuming socioeconomic secular dynamic in which society is immersed in its self-destructive course. Consequently, Christian imagery is losing its conceivability and credibility, and past motivations that once encouraged belief have lost their appeal. Without these as points of contact, the demise of the institutional church will be relentless despite all efforts to halt it. Yet as at other crisis points in history, the divine promise has been to raise a faithful remnant with sufficient promise to outlast whatever the societal demise. After carefully analyzing the ingredients of our societal crisis, the author develops the contours of a Remnant Church to be set in place now within the present institutional churches. This necessitates distilling a vital spirituality and discerning the heart of a preservable tradition sufficient to claim both personal and communal commitment. Thereby prepared for the long haul, the Remnant Church can emerge as a prophetic alternative.

The Private Is Political Alice E. Marwick, 2023-05-30. A compelling firsthand investigation of how social media and big data have amplified the close relationship between privacy and inequality. Online privacy is under constant attack by social media and big data technologies. But we cannot rely on

individual actions to remedy this it is a matter of social justice Alice E Marwick offers a new way of understanding how privacy is jeopardized particularly for marginalized and disadvantaged communities including immigrants the poor people of color LGBTQ populations and victims of online harassment Marwick shows that few resources or regulations for preventing personal information from spreading on the internet Through a new theory of networked privacy she reveals how current legal and technological frameworks are woefully inadequate in addressing issues of privacy often by design Drawing from interviews and focus groups encompassing a diverse group of Americans Marwick shows that even heavy social media users care deeply about privacy and engage in extensive privacy work to protect it But people are up against the violation machine of the modern internet Safeguarding privacy must happen at the collective level **Ladies Get Paid** Claire Wasserman,2021-01-14
