Publications,2015-02-20 This excellent reference source brings together hard to find information on the constituent units of the Russian Federation The introduction examines the Russian Federation as a whole focusing on Russian federalism and elections followed by a chronology demographic and economic statistics and a review of the Federal Government The second section comprises territorial surveys each of which includes a current map This edition includes new surveys covering the recently annexed and disputed territories of Crimea and Sevastopol as well as updated surveys of each of the other 83 federal subjects The third section comprises a select bibliography of books The fourth section features a series of indexes listing the territories alphabetically by Federal Okrug and Economic Area Users will also find a gazetteer of selected alternative and historic names a list of the territories abolished created or reconstituted in the post Soviet period and an index of more than 100 principal cities detailing the territory in which each is located **Terrorism, 2013-2015** Edward

Mickolus,2016-08-22 This second comprehensive chronology of international terrorist attacks covers three eventful years during which the Islamic State supplanted al Qaeda as the most active well financed and well armed terrorist group worldwide Domestic and international incidents around the globe are covered outlining several trends and exploding a number of media myths The author examines the enigmas of contemporary terrorist behavior and offers indicators and predictions to watch for in the coming years **Order without Design** Alain Bertaud,2024-08-06 An argument that operational urban planning can be improved by the application of the tools of urban economics to the design of regulations and infrastructure Urban planning is a craft learned through practice Planners make rapid decisions that have an immediate impact on the ground the width of streets the minimum size of land parcels the heights of buildings The language they use to describe their objectives is qualitative sustainable livable resilient often with no link to measurable outcomes Urban economics on the other hand is a quantitative science based on theories models and empirical evidence largely developed in academic settings In this book the eminent urban planner Alain Bertaud argues that applying the theories of urban economics to the practice of urban planning would greatly improve both the productivity of cities and the welfare of urban citizens Bertaud explains that markets provide the indispensable mechanism for cities development He cites the experience of cities without markets for land or labor in pre reform China and Russia this urban planners dream created inefficiencies and waste Drawing on five decades of urban planning experience in forty cities around the world Bertaud links cities productivity to the size of their labor markets argues that the design of infrastructure and markets can complement each other examines the spatial distribution of land prices and densities stresses the importance of mobility and affordability and critiques the land use regulations in a number of cities that aim at redesigning existing cities instead of just trying to alleviate clear negative externalities Bertaud concludes by describing the new role that joint teams of urban planners and

economists could play to improve the way cities are managed

New Frontiers of the Automobile Industry Alex Covarrubias V., Sigfrido M. Ramírez Perez, 2019-11-28 Analysing developments in digital technologies and institutional changes this book provides an overview of the current frenetic state of transformation within the global automobile industry An ongoing transition brought about by the relocation of marketing design and production centres to emerging economies and experimentation with new mobility systems such as electrical autonomous vehicles this process poses the question as to how original equipment manufacturers OEMs and newcomers can remain competitive and ensure sustainability With contributions from specialists in the automobile sector this collection examines the shifts in power and geographical location occurring in the industry and outlines the key role that public policy has in generating innovation

in entrepreneurial states Offering useful insights into the challenges facing emerging economies in their attempts to grow within the automobile industry this book will provide valuable reading for those researching internationalization and emerging markets business strategy and more specifically the automotive industry *Star Observer Magazine August 2015*

Elias Jahshan,2015-07-22 **Driving Productivity** Anthony J. Knowles,2025-08-28 Driving Productivity reconstructs the industrial histories of the American and German automotive industries in a new light From the Fordist assembly line to Japanese lean production and Industry 4.0 Anthony J Knowles critically examines major technical developments within the historical dynamics of capitalism Both countries face the pressure to automate transform labor and increase efficiency yet their responses differ due to divergent paradigms of integrating business labor and government Driving Productivity makes the case that improving productivity is a never ending process that becomes a compulsory social imperative that industries must respond to but are nevertheless responded to differently between countries **Boardroom Behaviour and the Law**

Samet Caliskan,Pereowei Subai,2025-03-28 This book examines how various areas of law collectively influence the relationship between a company and its directors particularly in safeguarding the long term interests of stakeholders Directors inappropriate actions can expose a company to significant corporate risks particularly in relation to regulatory violations such as breaches of competition law When directors engage in such misconduct company law and corporate governance provide certain control mechanisms that allow the company to manage these risks Additionally directors can be discouraged from engaging in such behaviour by the threat of being held accountable for violations of competition law This book evaluates various tools designed to regulate directors behaviours and ensure accountability questioning whether the legal frameworks strike the right balance between corporate liability and personal accountability It argues that these mechanisms do not sufficiently protect the long term interests of stakeholders and that shortcomings in the law leave companies vulnerable to directors misconduct which cannot be adequately addressed through traditional risk management strategies This book will be of interest to researchers in the field of corporate law competition law and corporate governance

Automotive News ,2007 **Driving Down Russia's Spine** Paul Richardson,2016-06-01 On one level this book is the story of an epic 6000 kilometer road trip from the frigid shores of the Barents Sea to Sochi Russia's southernmost tip on the Black Sea Dubbed The Spine of Russia the adventure tasked a mismatched duo of Russian and American journalists with capturing a view of Russia from the ground to collect powerful images and honest human stories that offered a more subtle complex picture of the world's largest country But this book is far more than just a travel essay For it intertwines fascinating subject profiles with digressions into historical and cultural themes relevant to understanding modern Russia It is a story told with humor and with the insight derived from the author's three decades of intimate interactions with Russia Among the many interesting stories in the book An expedition to The Well to Hell A music school in one of the most polluted towns on earth An energetic youth activist branded as a foreign agent Russia's largest manufacturer of barbells who also makes cloudberry

preserves A roadside berry seller recently paroled from prison A blacksmith who is a Jehovah's Witness A bone chilling trip to the foundation place of the Russian state The slightly off kilter leader of St Petersburg's Cossack community A retired village doctor who can't stop working because he won't be replaced A piece of Nebraska transplanted into the middle of Russia's Black Earth region There were also craft beer makers ballroom dancers policemen restaurant owners an opera student a priest a single mother an accessibility activist teachers docents a best selling author soap makers journalists a sailor a winemaker and a woman taking on the male dominated world of Russian hockey And no trip to Russia would be complete without a run in with security officials in leather jackets So there is also that Taken together the stories from this epic road trip create a compelling portrait of Russia and its people The book could not be more timely recent events show how vital it is for Americans to continue working to understand Russia
