## **2015oct Nov Unisa Timetable:**

*In Different Times* Ian van der Waag, Albert Grundlingh, 2019-11-15 This is the first attempt to bring together diverse scholars using different lenses to study South Africa's Border War. As a book it is critical in approach, provides deeper reflection and focuses specifically on the SADF experience of the war. The result is a more complex picture of the war's dynamics and its legacies. Although South Africa is a vastly different country today, the study of the Border War opens a range of questions also relevant to contemporary deployments such as in Lesotho 1998 and the Central African Republic 2013. It includes the debate on participation in foreign conflicts, on the deployment design and preparation of appropriate modern armed forces and their use as foreign policy instruments in far-off theatres, on military planning and as the historical controversies regarding the battles at Cuito Cuanavale and Bangui illustrate on the interface between foreign campaigning and domestic politics.

**Strategic Mergers in Higher Education** Ricardo Azziz, Guilbert C. Hentschke, Lloyd A. Jacobs, Bonita C. Jacobs, 2019-10-29 How proactive mergers can stabilize and enhance colleges and universities and ensure their future. With the pool of high school graduates decreasing, national and global competition increasing, and the need to invest in new technologies and approaches growing, many universities and small colleges alike are struggling not just to thrive but to survive. In this challenging environment, mergers and consolidations are often viewed as options of last resort. *Strategic Mergers in Higher Education* however argues that college and university mergers are a legitimate and proactive strategic option to help ensure success, maximize quality and service, and yield the best return for faculty and students. In this thoughtful book, Ricardo Azziz and his coauthors, including higher education leaders who have led successful consolidations, address the many questions surrounding institutional mergers: When, why, and how should a merger be considered? How can leaders deal effectively

with the many challenges and opposition that a merger will inevitably face What are the predictors of merger failure and success And how do we successfully address the postmerger cultural divide This thorough text demonstrates how mergers can dramatically accelerate the goals of postsecondary institutions The book is informed by an extensive review of published reports interviews with over thirty higher education leaders individual case studies and the experiences of the authors themselves Addressing numerous critical questions this practical guide is aimed at higher education leaders and their boards the campus leaders charged with executing transformative mergers and any policy makers interested in change management or the future of higher education
