Adorno And Performance Performance Philosophy:

Adorno and Performance Will Daddario, Karoline Gritzner, 2014 **Adorno and Performance** W. Daddario, K. Gritzner, 2014-10-16 Adorno and Performance offers the first comprehensive examination of the vital role of performance within the philosophy of Theodor W Adorno Capacious in its ramifications for contemporary life the term performance here unlocks Adorno's dialectical thought process which aimed at overcoming the stultifying uniformity of instrumental reason

Teaching Performance: A Philosophy of Piano Pedagogy Jeffrey Swinkin, 2015-07-16 How can the studio teacher teach a lesson so as to instill refined artistic sensibilities ones often thought to elude language How can the applied lesson be a form of aesthetic education How can teaching performance be an artistic endeavor in its own right These are some of the questions Teaching Performance attempts to answer drawing on the author's several decades of experience as a studio teacher and music scholar The architects of absolute music Hanslick Schopenhauer and others held that it is precisely because instrumental music lacks language and thus any overt connection to the non musical world that it is able to expose essential elements of that world More particularly for these philosophers it is the density of musical structure the intricate interplay among purely musical elements that allows music to capture the essences behind appearances By analogy the author contends that the more structurally intricate and aesthetically nuanced a pedagogical system is the greater its ability to illuminate music and facilitate musical skills The author terms this phenomenon relational autonomy Eight chapters unfold a piano pedagogical system pivoting on the principle of relational autonomy In grounding piano pedagogy in the aesthetics of absolute music each domain works on the other On the one hand Romantic aesthetics affords pedagogy a source of artistic value in its own right On the other hand pedagogy concretizes Romantic aesthetics deflating its transcendental pretensions and showing the dichotomy of absolute utilitarian to be specious **The Music of Theology** Andrew Hass, Mattias

Martinson, Laurens ten Kate, 2024-02-01 This book reconceives theology as a musical endeavour in critical tension with language space and silence An Overture first moves us from music to religion and then from theology back to music a circularity that drawing upon history sociology phenomenology and philosophy disclaims any theology of music and instead pursues the music in theology The chapters that follow explore the three central themes by way of theory music and myth Adorno Benjamin and Deleuze language Derrida Rosa and Nancy space Schelling Hegel Homer and Cage silence In overdubbing each other these chapters work towards theology as a sonorous rhythm between loss and freedom A Coda provides three brief musical examples Thomas Tallis György Ligeti and Evan Parker as manifestations of this rhythm to show in summary how music becomes the very pulse of theology and theology the very intuition of music The authors offer an interdisciplinary engagement addressing fundamental questions of the self and the other of humanity and the divine in a deconstruction of modern culture and of its bias towards the eye over the ear The book harmonizes three scholarly voices who attempt to find where the resonance of our Western conceptions and practice musically and theologically might resound

anew as a more expansive music of theology

Adorno's Theory of Philosophical and Aesthetic Truth Owen

Hulatt,2016-09-27 In Adorno's Theory of Philosophical and Aesthetic Truth Owen Hulatt undertakes an original reading of Theodor W Adorno's epistemology and its material underpinnings deepening our understanding of his theories of truth art and the nonidentical Hulatt's novel interpretation casts Adorno's theory of philosophical and aesthetic truth as substantially unified supporting the thinker's claim that both philosophy and art are capable of being true For Adorno truth is produced when rhetorical texture combines with cognitive performance leading to the breakdown of concepts that mediate the experience of the consciousness Both philosophy and art manifest these features although philosophy enacts these conceptual issues directly while art does so obliquely Hulatt builds a robust argument for Adorno's claim that concepts ineluctably misconstrue their objects He also puts the still influential thinker into conversation with Hegel Husserl Frazer Sohn Rethel Benjamin Strawson Dahlhaus Habermas and Caillois among many others

A Musicology of Performance

Dorottya Fabian,2015-08-17 This book examines the nature of musical performance In it Dorottya Fabian explores the contributions and limitations of some of these approaches to performance be they theoretical cultural historical perceptual or analytical Through a detailed investigation of recent recordings of J S Bach's Six Sonatas and Partitas for Solo Violin she demonstrates that music performance functions as a complex dynamical system Only by crossing disciplinary boundaries therefore can we put the aural experience into words A Musicology of Performance provides a model for such a method by adopting Deleuzian concepts and various empirical and interdisciplinary procedures Fabian provides a case study in the repertoire while presenting new insights into the state of baroque performance practice at the turn of the twenty first century Through its wealth of audio examples tables and graphs the book offers both a sensory and a scholarly account of musical performance These interactive elements map the connections between historically informed and mainstream performance styles considering them in relation to broader cultural trends violin schools and individual artistic trajectories A Musicology of Performance is a must read for academics and post graduate students and an essential reference point for the study of music performance the early music movement and Bach's opus

Adorno and Modern Theatre K.

Gritzner,2016-04-29 Adorno and Modern Theatre explores the drama of Edward Bond David Rudkin Howard Barker and Sarah Kane in the context of the work of leading philosopher Theodor W Adorno 1903 1969 The book engages with key principles of Adorno's aesthetic theory and cultural critique and examines their influence on a generation of seminal post war dramatists

A Life of Ethics and Performance John Matthews,David Torevell,2011-05-25 Ethics is in an important sense a matter of being good but it is also a question about how to live a good life This book's emphasis on the theatrical and performative and their relationship to ethics highlights that being good is a matter of acting good and that acting good is a question of performing or not performing certain roles and duties This book surveys the most recent work in the field of ethics and performance organizing this research through the metaphor of the good life Each chapter explores a question

about what it means to act good at a different point in life and thus the book moves from natality to fatality and beyond in its meditation on the relationship between performance and life itself In this it offers an important contribution to the contemporary debate about the relationship between ethics theatre and performance studies
