Cemeterians Jack W. Plunkett, 2008 Franklin Jack Marla Thadius and Caitlin this unlikely group of assorted misfits are the Cemeterians, a group that will take on any job, no really, we mean any bloody job. Money's a bit tight right now. Trudge through disgusting sewers to battle manatee massacring mermaids and soggy cultists creep through creepy fog littered cemeteries straight out of an ancient Hammer Film soundstage, confront undead lecherous lodgers and other assorted beasties, creepies, and ghoulies. It all comes down to whether an adolescent giant Automaton, a truly mad Mad Scientist, a surly Necromancer, a Banshee's granddaughter, and a reluctant furry monster straight from under your little sister's bed can manage not to kill each other or at least quit fighting over the tele privilege schedule long enough to get the job done. Not likely.

Retailing Denise T. Ogden, James R. Ogden, Robert Paul Jones, 2017-08-02 Light on the fluff, solid on the basics, the fourth edition of *Retailing* is a concise text that covers strategic issues with an eye on financial considerations and operations management issues illustrated through retail cases and exercises. New co-author Robert Paul Jones is Department Chair of Hospitality and Retail Management in the College of Human Sciences at Texas Tech. In addition to his extensive academic work, Dr. Jones has over 25 years of executive leadership and consulting experience in retail and hospitality. He uses an Integrated Retail Management flow chart to depict retail functions. Most retail texts present students with a series of chapters that provide useful information but fail to explain how the various activities involved in retailing affect each other. The 4th edition offers the student an overview of the retail process through the use of an integrated retail management (IRM) plan. The steps involved in retailing as presented in the text are tied together through the IRM plan. Expanded coverage of Mobile and e-Tailing and included throughout the text and not treated as a stand-alone chapter. This helps emphasize that e-tailing is a form of retailing that uses many of the same models as other forms. Includes updated cases and real-world examples. And omni-channel retailing incorporated throughout text.
