Curriculum Windows Thomas S. Poetter, Kelly Waldrop, Tasneem Amatullah, Cleighton Weiland, Jody Googins, Vanessa Winn, 2017-04-01 Curriculum Windows What Curriculum Theorists of the 1990s Can Teach Us about Schools and Society Today is an effort by students of curriculum studies along with their professor to interpret and understand curriculum texts and theorists of the 1990s in contemporary terms The authors explore how key books authors from the curriculum field of the 1990s illuminate new possibilities forward for us as scholar educators today How might the theories practices and ideas wrapped up in curriculum texts of the 1990s still resonate with us allow us to see backward in time and forward in time all at the same time How might these figurative windows of insight thought ideas fantasy and fancy make us think differently about curriculum teaching learning students education leadership and schools Further how might they help us see more clearly even perhaps put us on a path to correct the mistakes and missteps

of intervening decades and of today The chapter authors and editor revisit and interpret several of the most important works in the curriculum field of the 1990s The book's Foreword is by renowned curriculum theorist William H Schubert **Miles to go before I sleep** Average Joes, 2015-02-25 The Race Around Ireland is a non stop 2 200 km bicycle race that circumnavigates the island of Ireland anti clockwise It is held every year at the start of September and can be approached as a solo competitor as a team of two four or eight In January of 2014 a group of cyclists from Maynooth Students for Charity Cycling Club decided to take on the challenge They were told it was the toughest endurance race in Europe This is the story as told through the recollections of the participants of how a bunch of Average Joes conquered the race and set a new Irish record time It is a story of great adventure of beating the odds of battling inner demons and exceeding expectations Ultimately it is a story of teamwork and lifelong friendship because that's what won the race *A Psychological Biography of Hiram "Hank" Williams* Paul R. Nail, Ph.D., 2024-04-09 Volume II picks up in 1943 44 right where Volume I left off with Hank's courtship and marriage to first wife Audrey Sheppard Guy Williams his rise to fame at the Louisiana Hayride 1948 49 and at the Grand Ole Opry 1949 50 before success began closing in on him by December 1950 Hank was only 27 years old at the time and no one knew that he had only two more years to live Despite Hank's growing alcoholism marital and health problems and eventual addiction to prescription drugs his last two years were perhaps the most productive and successful of his career A special feature of Volume II is that Dr Nail devotes an entire chapter to the art and craft of songwriting Here Nail provides what I believe is the most accurate and comprehensive analysis to date of the relative contributions of Hank and his publisher song editor Fred Rose to Hank's songs Like Volume I Volume II is a must read for anyone seeking greater understanding and insight into the short but fabulous life and career of the legendary Hank Williams I wholeheartedly recommend it Ed Guy noted Hank Williams expert *Auctor Ludens* Gerald Guinness, Andrew Hurley, 1986-01-01 This is a book about play practice rather than play theory Of course practice presupposes theory but here the editors choose to keep general theoretical assumptions under cover rather than force them into explicitness The contributors to this volume were given free rein to discuss whatsoever aspect of literary play caught their fancy The absence of a predetermined theoretical framework has resulted in an idiosyncratic volume on the different forms of play Advances in Medical Imaging.
