Foul Play in the Nonprofit Sector Mark S. LeClair,2024-09-17 It is quite easy to find corruption within nonprofits This is particularly the case in the subsector of not for profits that are incorporated as traditional 501 c 3 entities With the continuing erosion of public confidence in charities these institutions must act now both individually and collectively to bolster trust and ensure public support for nonprofits that has been a hallmark of American democracy This book explores the causes of malfeasance in the nonprofit realm It examines how the current inadequate regulatory environment together with inherent agency problems can lead organizations astray as they turn away from fulfilling donor wishes to instead act in their own self interest The book highlights the distinction between soft corruption in the nonprofit sector and hard corruption The former includes the misuse of donor funds that do not cross the line into illegality and the latter covers explicitly illegal misappropriation of contributions In *Foul Play in the Nonprofit Sector* economist Mark S LeClair provides constructive overviews regarding charity evaluation Is it truly fair to judge nonprofits on their financials The financial figures so frequently dictate the value of a nonprofit and this often isn't the best way to judge a charity's performance The manuscript includes suggestions for internal sectoral changes and regulatory reforms that can deter corruption at nonprofits
