Animalité Six Interpretations Humaines:

First Nature. The Problem of Nature in the Phenomenology of Merleau-Ponty Alessio Rotundo, 2023-08-28 This book explores a radically integrative phenomenology of nature through the work of Maurice Merleau-Ponty. By revisiting novel empirical findings in the sciences and advances in scientific methods and concepts, Merleau-Ponty leads us to rediscover a first nature right at the heart of the subject. Alessio Rotundo traces and documents the presence of a double meaning of nature affecting Merleau-Ponty's analyses across foundational aspects of human experience: sense perception, organic development and behavior, cognition, language and history. Physical, biological and psychological processes in nature are not merely scientific data; they provide the evidence for another, more primordial sense of nature. **Translating and**

Interpreting Justice in a Postmonolingual Age Esther Monzó-Nebot, Juan Jiménez-Salcedo, 2019-01-15

Postmonolingualism as formulated by Yildiz can be understood to be a resistance to the demands of institutions that seek to enforce a monolingual standard. Complex identities, social practices and cultural products are increasingly required to conform to the expectancies of a norm that for many is no longer considered reasonable. Thus, in this postmonolingual age, it is essential that the approaches and initiatives used to counter these demands aim not only to understand these hyper-diverse societies but also to deminoritize underprivileged communities. **Translating and Interpreting Justice in a Postmonolingual Age** is an attempt to expand the limits of postmonolingualism as a framework for exploring the possibilities of translation and interpreting in mediating between the myriad of sociocultural communities that coexist today. Challenging assumptions about the role of translation and interpreting, the contributions gathered in this volume focus on intercultural and intergroup understanding as a process and as a requisite for social justice and ethical progress. From different but complementary approaches, practical experiences and existing legal and policy frameworks are scrutinized to highlight the need for translation and interpreting policies in legal and institutional contexts in multicultural societies. Researchers and policymakers in the fields of translation and interpreting studies, multiculturalism and education, and language and diversity policies will find inspiring perspectives on how legal and institutional translation and interpreting can help pursue the goals of democratic societies. **Le Complexe des trois singes. Bimbenet, 2017-10-05 T00:00:00+02:00 Quelque chose a changé dans notre rapport aux animaux. La cause animale est l'ordre du jour et le vivant humain est désormais plus essentiellement animal qu'humain. Cela s'appelle un zoocentrisme au centre de notre humanité, l'animalité. En apparence, nous avons tout gagné : cette nouvelle image de l'homme. Elle nous vient de la biologie, de l'évolution qui nous a situés quelque part dans l'ordre des primates en bonne compagnie avec nos cousins, les grands singes. Elle est aussi un appel à reformer et moraliser nos relations avec les animaux que nous exploitons : on respecte d'autant mieux qui nous ressemble. Enfin, l'animalité humaine fait de nous des esprits forts qui ont su en finir avec les dualismes et les grands partages métaphysiques d'antan. Bref, c'est tout gardé, une pensée progressiste car ouverte : la science ne refuse envers les

animaux et philosophiquement clair e Il se pourrait pourtant que ces raisons d'en finir avec la différence homme animal ne soient qu'un ensemble de pensées banales qui entre oubli des sciences humaines réduction de la vie humaine sa seule vulnérabilité et d'ni de ce que nous vivons en première personne composent finalement le portrait idéologique d'un progressisme stérile. Pouvons nous chapper au complexe des trois singes ces trois façons de reconnaître ce que nous vivons et faisons comme vivants humains Et pouvons nous imaginer un progressisme de vrit conscient de tout ce que nous devons aux animaux sans pour autant renier ce que nous sommes. tienné Bimbenet est professeur de philosophie contemporaine l'université Bordeaux Montaigne Il est notamment l'auteur de *L'Animal* que je ne suis plus Gallimard 2011 et de *L'Invention du réalisme* Cerf 2015

Mallarmé and Circumstance Roger Pearson,2004 This is a comprehensive study of Mallarmé's poetry of circumstance a series of lucid and accessible readings of Mallarmé's verse and prose writings **Identity at Work** Eric Olmedo,2015-07-16 This book investigates the interface of ethnicity with occupation empirically observed in luxury international hotels in Kuala Lumpur Malaysia It employs the two main disciplines of anthropology and sociology in order to understand the root causes and meaning of ethnicity at work within the hospitality industry sector More specifically it observes social change in a multi ethnic and non secular society through an ethnographic study located in a micro organisation the Grand Hotel At the individual level this research shows how identity shifts and transformation can be mediated through the consumption and manipulation of food at the workplace In addition it combines an ambitious theoretical discussion on the concept of ethnicity together with empirical data that highlights how ethnicity is lived on an everyday basis at a workplace manifesting the dynamics of cultural religious and ethnic diversity The book presents the quantitative and qualitative findings of two complementary surveys and pursues an interdisciplinary approach as it integrates methodologies from the sociology of organisations with classic fieldwork methods borrowed from ethnology while combining French and Anglo Saxon schools of thoughts on questions of identity and ethnicity The results of the cultural contact occurring in a westernised pocket of the global labour market in which social practices derive from the headquarters located in a society where ethnicity is self ascribed with Malaysian social actors to whom ethnicity is assigned will be of particular interest for social scientists and general readers alike *The Learned Draftsman* Édouard Kopp,2017-01-10 The celebrated French artist Edme Bouchardon 1698 1762 is primarily known as a sculptor today but his contemporaries widely lauded him as a draftsman as well Talented highly innovative and deeply invested in the medium Bouchardon made an important contribution to the European art and culture of his time and in particular to the history of drawing Around two thousand of his drawings survive most of which bear no relation conceptual or practical to his sculpture yet remarkably little scholarly attention has been paid to this aspect of his oeuvre This is the first book length work devoted to the artist's draftsmanship since 1910 Ambitious in scope this

volume offers a compelling narrative that effectively covers four decades of Bouchardon's activity as a draftsman from his departure for Rome in 1723 as an aspiring student to his death in Paris in 1762 by which time he was one of the most renowned artists in Europe. His accomplished and dynamic style is analyzed and copiously illustrated in a series of five interrelated chapters that serve as case studies each of which focuses on a coherent group of drawings from a particular period of Bouchardon's career.

Evolution, Sacrifice, and Narrative Carol Colatrella, 2016-07-22 First published in 1990 Balzac, Zola, and Faulkner all drew upon the principles of evolutionary theory to represent man's place in nature and his struggle for survival in their major series. *La Comédie humaine*, *Rougon-Macquart*, and the *Yoknapatawpha* fiction. This book focuses on the first novels in each author's series: *Le Père Goriot*, *La Fortune des Rougon*, and *Flags in the Dust* and considers how each novel relates to its series and derives a definition of the naturalistic roman fleuve. To describe this development, the issues of how a scientific idea becomes refracted in a literary genre and how the naturalistic novel developed out of the realistic novel are considered.

Animots Matthew Senior, David L. Clark, Carla Freccero, 2015-01-01 The latest volume of *Yale French Studies* addresses French inspired theoretical and philosophical concerns centered on animals and animality. Contributors from France, the United Kingdom, and North America discuss animal related topics in the French philosophical and literary tradition offering a wide range of perspectives on animals, ethics, and the future of animal studies. Essays question the reducibility of animal lives to rights discourse on the one hand and scientific empiricisms on the other and examine whether and how the advent of the posthuman will affect the standing and the future of the nonhuman animal.

La Fabrique des croyances chez l'enfant Fabrice Clément, 2023-02-08 Pourquoi croyons nous que quelque chose est vrai? Et qu'est ce qui peut nous faire douter? Fabrice Clément explore ici la genèse de la croyance, la manière dont se fabrique ce que nous jugeons réel. Croyons nous ce qui est vérifié? Ce qu'on nous a dit? Ce qui nous permet de partager les représentations de notre communauté? Ce livre explore ce que l'on peut savoir des croyances en partant du développement de l'enfant. Au croisement des sciences humaines et des sciences de la vie, en particulier des sciences cognitives, Fabrice Clément analyse les manières de tenir pour vraie une représentation, le rôle des croyances dans nos existences et dans nos comportements. Le but est de comprendre comment des penchants naturels, des motions et des effets culturels s'articulent pour déclencher l'adhésion ou le refus de croire, comment par exemple une histoire inspirante peut susciter un projet de vie ou comment les fake news peuvent prospérer en dépit des faits. Un livre clairant sur ce qui nous fait croire et qui se met en place dans l'enfance. Une synthèse richement documentée et très accessible. Fabrice Clément travaille dans un champ disciplinaire qui réunit sciences sociales et anthropologie, philosophie et sciences cognitives. Il est professeur à l'Institut des sciences de la communication et de la cognition de l'Université de Neuchâtel.
