Saxton,2001-04 **Annual Threat Assessment** Defense Intelligence Defense Intelligence Agency,2014-11-14 The United States continues to face a complex security environment marked by a broad spectrum of dissimilar threats emerging from countries and highly adaptive transnational terrorist networks DIA is focused on immediate and long term threats to allied forces in Afghanistan risks posed by transnational terrorist organizations especially as they relate to threats to military forces and facilities the threat of weapons of mass destruction falling into the hands of non state actors and the proliferation of these weapons to state actors monitoring the potential threat to the U S from ongoing conflicts the emergence of foreign militaries with near peer capabilities and support for US and Allied forces at sea or on the ground deployed around the world Defense intelligence must be able to provide timely and actionable intelligence across the entire threat spectrum Our assessments are based upon the agency s worldwide human intelligence technical intelligence counterintelligence and document and media exploitation capabilities along with information from DIA s partners in the IC and the entire defense intelligence enterprise international allies and open sources In cooperation with these partners and allies DIA is strengthening its collection and analysis as well as sharing more information across intelligence disciplines and with our nation s close allies to better understand the multitude of the threats facing the nation The men and women of DIA know they have a unique responsibility to the American people and take great pride in their work I am privileged to serve with them and present their analysis to you On behalf of the entire defense intelligence enterprise thank you for your continuing confidence Your support is vital to us NATO Towards the Challenges of a Contemporary World 2013 Robert Czulda,Robert

Łoś,2013-12-26 A wide range of contemporary challenges and threats and their volatility uncertainty complexity and ambiguity make it necessary to develop a new flexible and integrated holistic approach The modern world requires NATO to build institutional partnerships with a range of actors This applies not only to the other major international organizations such as the United Nations and the European Union but also to non governmental organizations NGOs as well as the private sector for example the energy and IT sectors All these players must become partners in the attempt to cope with multi dimensional security related problems Given the vast differences in their goals mandates methods and philosophy of action building trusting and effective relationships between them will be an arduous process Nevertheless as the biggest political and military organization in the world NATO cannot avoid contemporary challenges if it does not want to go out of business

Minimum Deterrence: Examining the Evidence Keith B. Payne, James Schlesinger, 2016-04-14 The National Institute for Public Policy's new book *Minimum Deterrence: Examining the Evidence* is the first of its kind. Dr. Keith Payne, former Secretary of Defense, James Schlesinger, and an unparalleled bipartisan group of senior civilian and military experts critically examine eight basic assumptions of Minimum Deterrence against available evidence. In general, Minimum Deterrence does not fare well under the careful scrutiny. Proponents of a Minimum Deterrent US nuclear force posture believe that anywhere from a handful to a few hundred nuclear weapons are adequate to deter reliably and predictably any enemy from attacking the United States now and in the future. Because nuclear weapons are so destructive, their thinking goes, no foreign leader would dare challenge US capabilities. The benefits advocates claim of reducing US nuclear weapons to the minimum level needed are better relations with Russia and China, reinforcement of the arms control and Nonproliferation Treaty, billions of defense dollars in savings, and greater international stability on the way to nuclear zero. As political pressure builds to pursue this vision of minimum US deterrence, *Minimum Deterrence: Examining the Evidence* stands as the seminal study to address the many claims of great benefit using available evidence. This book was published as a special issue of *Comparative Strategy*.

U.S. Nuclear Weapons Policy William James Perry, Brent Scowcroft, Charles D. Ferguson, 2009 The report notes that in the near term nuclear weapons will remain a fundamental element of US national security. For this reason, it emphasizes the importance of maintaining a safe, secure, and reliable deterrent nuclear force and makes recommendations on this front. The report also offers measures to advance important goals such as preventing nuclear terrorism and bolstering the nuclear nonproliferation regime. Foreword

Defense Budgeting for a Safer World Michael J. Boskin, John N. Rader, Kiran Sridhar, 2023-11-01 America is facing the most dangerous and complex geopolitical environment since World War II. Ensuring the adequacy and flexibility of our defense budget is essential to keeping our nation secure and the world safe for global democracy. *Defense Budgeting for a Safer World* brings together the ideas, perspectives, and solutions of America's most renowned experts on national security and the defense budget. The volume originates from a conference held at the Hoover Institution in early 2023 and reflects the presentations, discussions, and debates among military and civilian leaders. Drawing on their remarkable experience leading the Pentagon, the services, Congress, and academia, these experts lay out the key priorities in reforming, realigning, and rightsizing the budget amid current challenges. Several topics converge: national security threats, strategy, technology, and innovation, personnel reform, options, and the politics of the defense budget. This unique compilation covers each of the major areas of debate in forging and sustaining a defense budget capable of supporting the nation's security needs.

International Security Studies and Technology Tobias T. Gibson, Kurt W. Jefferson, 2024-10-03 *International Security Studies and Technology* applies an interdisciplinary perspective to the study of emerging technologies and issues related to their development, governance, laws, ethics, understanding, and mis use, considering their impact on international security and established international norms. Bringing together a diverse collection

of experts Tobias T Gibson and Kurt W Jefferson analyse international security and technology through three conceptual frameworks approaches assessments and frontiers Restructuring of the Strategic Defense Initiative (SDI) Program United States. Libicki,2025-05-02 A reevaluation of conflict thresholds in the context of complex cyber conventional and nuclear war The return of great power competition has renewed concerns about managing escalation lest a minor crisis inadvertently spiral into nuclear war This has become apparent during the war between Russia and Ukraine as Western aid for Ukraine has been predicated on avoiding Russian escalation The New Calculus of Escalation updates our understanding of conflict escalation dynamics for the twenty first century with the goal of reducing the possibility of a catastrophic war To improve mutual

understanding among states Libicki rethinks conflict thresholds and exit ramps that manage escalation During the Cold War there were two critical thresholds one between peace and war and one between conventional war and nuclear war But ongoing developments in cyber and other advanced military technologies threaten command and control and blur the old thresholds Military strategists international relations scholars and graduate students will benefit from this book's cogent analytic framework in shaping future debates Defending NATO's Northern Flank Lon Strauss,Njord Wegge,2023-11-01 This book investigates several aspects of military power and security in the North Atlantic and Arctic regions NATO's northern flank is a large maritime and littoral theatre where NATO directly borders Russia's Northern Fleet Military Administrative Territory which is the location of some of Russia's most potent air sea and land power capabilities While military tensions on the northern flank had been relatively low for years the Ukraine war and increased great power rivalry have altered that dynamic with heightened geopolitical tensions This has increased the focus on military strategic competition in this northernmost region of the alliance This book presents new assessments of several aspects of military power and security in the North Atlantic and Arctic regions With an analysis of the security and political climate in the High North and of developments in Western military strategies capabilities doctrines and operational concepts the volume seeks to bring together an holistic understanding of the strategic challenges and opportunities facing the North Atlantic states and NATO in this dynamic area of responsibility for the alliance In doing this the book provides key insights into the role of branch specific and joint approaches to power projection and operations in the High North which also include selected country case studies This book will be of much interest to students of NATO military studies security studies and International Relations **Indo-Pacific Strategies and Foreign Policy Challenges** Hyun Ji Rim,James E. Platte,2023-06-30 This book examines key issue areas of Indo Pacific strategies such as cyber security space security maritime security emerging technologies and institutional frameworks in the context of deepening US China rivalry With greater interconnectedness across various fields the Indo Pacific region faces greater security challenges including future strategic power competition States are increasingly engaging in intense strategic activities and strengthening partnerships The first part of book focuses on the strategic competition between the United States and China in different areas including cyber security space security maritime security emerging technologies and institutional frameworks The second part of the book presents the perspectives of different local actors in the regional theatre and the intentions and concepts behind their growing interconnectedness under Indo Pacific strategies including China Russia Taiwan Hong Kong and North Korea Through examining different aspects of US Indo Pacific strategy this edited book contributes to a better understanding of Indo Pacific strategy and its implications for broader security cooperation in a more interconnected world The book will be of interest to scholars and policy makers working on Asian Security Politics International Relations and the security dynamics of East Asia and the Indo Pacific *Leadership in War and Peace* Joan Johnson-Freese,2025-03-31 This book offers a gendered

perspective on leadership in war and peace considering leadership in its complexity and presenting a practical examination of both leadership successes and failures The work challenges readers to think through and discuss specific aspects of leadership including how and why leadership diversity matters and the ethical challenges presented by the revolving door of the military industrial complex Further leaders responsible for decisions involving war and peace must be able to understand appreciate and communicate effectively with everyone they work with and have a repertoire of leadership styles to use depending on context The book represents an excellent tool for developing such skills as it uniquely considers leadership through both male and female lenses along with the experiences and perspectives of multiple military government and industry leaders interviewed by the author making it both relatable and informative This book will be of much interest to students of gender studies leadership studies defense studies and military studies in general as well as military and security practitioners
