the literature on the subject and that it will be useful as a quick reference book I hope it may also fall into the hands of those in other disciplines and enable them to understand and appreciate the contribution of the occupational therapist to the rehabilitation team. This is the era of joint replacement with ever increasing demand for primary and revision surgery. Improved implants and improved surgical techniques are constantly being researched. Surgery for bone tumour is less mutilating and more hopeful than ever before. Operations to release tendons and soft tissue contractures, tendon transfers, osteotomies, spinal fusion, joint fusion etc are performed on patients with neurological problems thus improving function and appearance and preventing further deformity. These are some examples of procedures in this exciting and fast developing field while hospital beds are occupied for an ever shorter period of time and the potential for occupational therapy is enormous. If surgery is to be successful the importance of assessing the patient as a human being cannot be over emphasised. Souter 1987. This is precisely the approach of the occupational therapist.

Occupational Therapy with Aging Adults - E-Book Karen Frank Barney, Margaret Perkinson, 2024-06-21. Get all the information you need to work holistically, creatively and collaboratively when providing services for older adults with Karen Frank Barney, Margaret A Perkinson and Debbie Laliberte Rudman's *Occupational Therapy with Aging Adults* 2nd Edition. Emphasizing evidence based, occupation based practice and a collaborative interdisciplinary approach, this text walks students and practitioners through the full range of gerontological occupational therapy practice, inclusive of working with individual clients to working at systems and societal levels. Over 80 leaders in their respective topical areas contributed to the book's 33 chapters, including the conceptual foundations and principles of gerontological occupational therapy, bio psychosocial age related changes, environmental forces shaping occupational participation for older adults, the continuum of health care as well as implications for communities and the attributes, ethical responsibilities and roles involved in gerontological occupational therapy. This edition also covers topical OT issues that are crucially important to an aging population such as diversity and inclusion, disability and aging, sexuality, technology, telehealth and virtual environments, intergenerational connections, updates on dementia research and caring for someone with dementia, occupational justice and aging, age inclusive communities and an expanded section on hearing to ensure your students are well versed in every aspect of this key practice area. UNIQUE Intraprofessional and interprofessional approach to intervention emphasizes working holistically and collaboratively in serving older adults. UNIQUE Chapter on the wide range of physiological, musculoskeletal and neurological changes among the aging patient population highlights related occupational performance issues. Case examples help you learn to apply new information to actual client and community situations. Chapter on evidence based practice discusses how to incorporate evidence into clinical or community settings. Questions at the end of each chapter can be used for discussion or other learning applications. UNIQUE Chapters on nutrition, food insecurity and oral health explore related challenges faced by older adults. Chapter on ethics provides a deeper understanding of how to address challenging ethical dilemmas.
