MASTER OF INFORMATION TECHNOLOGY (MIT) STREAM A Application for 2016

Thank you for your interest in the MIT degree at the University of Pretoria. This document contains information relating to the degree for 2016, including the purpose of the degree, the selection process, and how to apply. Please read all information carefully to prevent any disappointment.

The closing date for the 2016 intake is the 31st of October 2015.
International students' applications close on the 31st of August 2015.

Applications must include:

1. An online application on the UP web page
2. Full portfolio e-mailed to Rhona van der Merwe (rhona.vandermmerwe@up.ac.za or mita@up.ac.za)
3. All certificates and academic records, SAQA (if international student).

Only applications that are complete and received by the due dates will be considered.

PURPOSE

The graduate of the Master's degree in IT will have the knowledge and skills to manage and lead information and information technology-related activities in an organisation in strategic, operational and project environments. This degree provides a broad IT perspective as well as good research and reporting skills. The MIT degree is ideal for a middle management officer in preparation for senior management. Half of the degree is course work and the other half a mini-dissertation.

SELECTION

A limited number of applicants are selected for admission into the MIT degree every year. Selection is based on **previous education, work experience and the strength of submitted portfolios**. Applicants must meet the basic requirements for admission as stated below, but this does not guarantee admission, only admissibility. There is only one intake in January of every year.

Basic Requirements for Admission:

The following are basic requirements for admission to the MIT degree:

- An appropriate honours or bachelor's degree with an average of at least 65%; **AND**
- A pass mark in Mathematics at grade 12 (matriculation) level or another qualification in Mathematics, Statistics or Mathematical Statistics which the Selection Committee considers to be sufficient; **AND**
- Appropriate practical experience at middle management level in the IT environment.

These conditions apply subject to the stipulations of the general admission regulations of the University of Pretoria.

Innovations in online teaching and learning Judah P. Makonye, Nokulunga S. Ndlovu, 2023-03-01 This book's research is on online pedagogical approaches devised by teacher educators and researchers to circumvent a face to face curriculum delivery during the COVID 19 pandemic. The challenge faced by educators was that they were uncertain of how to use digital technologies in teaching learning and assessment productively. This book reports on case studies on teaching student teachers with technology in a way that advanced not only communication but also the cognitive growth of students in relation to disciplinary knowledge. The scholars from South African universities used both conceptual and empirical methodologies mostly in qualitative set ups. The scholarly contributions in this book are varied. They cover theoretical nuances for ICT use in education, considerations for the use of computers in the classroom, pedagogical thinking and pedagogical integration of ICTs in education, affordances of iPads in visible teaching and learning, supporting student cognition in Languages, Mathematics, Science, Engineering, Graphics and Design with ICTs. The use of software applications such as GeoGebra and Excel in teaching and learning mathematics is researched among others. The rich discussions that emerged from their research enable academics to learn from others' innovative moments that came as a result of pandemic pressure. The recommendations in this book can be used in blended learning beyond the COVID 19 era as curriculum delivery methods are bound to change. The value of this book is that it reports on pedagogical innovations in using digital technologies in teacher education. Researchers have an opportunity to learn from this book how to deal with the tantalising teaching and learning problem of our time. How can the use of digital technology transform teaching and learning in general and teacher education in particular? *Polymer Nanocomposites for Advanced Engineering and Military Applications* Ramdani,

Noureddine, 2019-04-01 The field of polymer nanocomposites has become essential for engineering and military industries over the last few decades as it applies to computing, sensors, biomedical, microelectronics, hard coating and many other domains. Due to their outstanding mechanical and thermal features, polymer nanocomposite materials have recently been developed and now have a wide range of applications. *Polymer Nanocomposites for Advanced Engineering and Military Applications* provides emerging research on recent advances in the fabrication methods, properties and applications of various nano fillers including surface modification methods and chemical functionalization. Featuring coverage on a broad range of topics such as barrier properties, biomedical, microelectronics and matrix processing, this book is ideally designed for engineers, industrialists, chemists, government officials, military professionals, practitioners, academicians, researchers and students. **ICEL2016-Proceedings of the 11th International Conference on e- Learning** Prof. Dr. Rozhan M. Idrus

and Dr Nurkhamimi Zainuddin, 2016 Information, Knowledge, and Technology for Teaching and Research in Africa Dennis Ocholla, Omwoyo Bosire Onyancha, Aderonke Olaitan Adesina, 2024-06-01 This book focuses on data and knowledge management for teaching and research in Africa. The importance of the information and knowledge society in current times is

recognized and adopts a meta analysis to demonstrate that modernization theory could be applied to economic development and rapid transformation of ISWEs in South Africa The book argues that modernity and the information and knowledge society present the shift and transition from the traditional way of doing things through information and communication technologies ICTs which could bring about developing progressing and advancing developing communities particularly Informal Sector Women Entrepreneurs ISWEs The book also has further shows how the modernization theory could be applied to the plight of ISWEs to assist them in leapfrogging from their situation and enjoying global business platforms Various techniques and strategies for collaborative engagements among academics towards strengthening scholarly ties within institutions and across borders especially in Africa are presented This is a valuable source for understanding the contemporary issues in information and knowledge management sharing and collaboration among university academics for undergraduates and postgraduate students in the library and information science profession Tacit knowledge is also presented as an asset that boosts innovation and generates competitive advantage for organizations in all walks of life Global research data management RDM literature is emphasized in higher education institutions HIEs and their libraries The status of RDM services as well as the competency requirements of employees responsible for providing RDM services and researchers are addressed in the examined literature

Innovation, Regional Integration, and Development in Africa
Samuel Ojo Oloruntoba, Mammo Muchie, 2018-07-26 This edited volume discusses the role of innovation and regional integration in economic development in Africa Over the past five decades post colonial African countries have struggled to break loose from the trap of poverty and underdevelopment through the adoption of various development strategies at regional national and continental levels However the results of both national and regional efforts at advancing development on the continent have been mixed Although the importance of agglomeration and fusion of institutions have long been recognized as possible path to achieving economic development in Africa the approach to regionalism has been unduly focused on market integration while neglecting other dimensions such as social policy mobility of labor educational policy biotechnology regional legislation manufacturing innovation and science and technology This volume investigates the link between innovation regional integration and development in Africa arguing that the immediate and long term development of Africa lies not just in the structural transformation of its economies but in the advancement of scientific and innovation capacities The book is divided into four parts Part I addresses the theoretical and conceptual underpinnings of innovation and regional integration in Africa Part II presents case studies which examine how regional economic institutions are fostering innovation in Africa Part III of the book deals with sectoral issues on innovation and integrated development in Africa Part IV sets the future research on innovation regional integration and development in Africa Combining theoretical analysis and a comparative interdisciplinary approach this volume is appropriate for researchers and students interested in economic development political economy African studies international relations agricultural science and geography as well as

policymakers in regional economic communities and the African Union *Wastewater Management and Technologies* Eyüp Debik, Müfit Bahadır, Andreas Haarstrick, 2023-08-31 This book edition on Wastewater Management and Technologies brings together a wealth of expertise by the authors who exemplify the wide range of options available from nature based solutions to different levels of technology and the different experiences through case studies from around the world with a particular focus on conditions in developing countries The book is part of a book series special editions based on the publication of the book Water and Wastewater Management published by Springer in 2022 ISBN 978 3 030 9528 7 The part about Wastewater Management and Technologies edited in this book will be deepened with this first special edition in terms of technological topics **Towards Sustainable Food Production in Africa** Morris Fanadzo, Nothando Dunjana, Hupenyu Allan Mupambwa, Ernest Dube, 2023-07-10 This edited book is focused on Sustainable Development Goal 2 It offers a comprehensive and topical collection of practices technologies and innovations in the field of sustainable food production and security under a changing climate It is a one stop handbook for farmers researchers extensionists policy makers and other stakeholders seeking to identify and disseminate best fit technologies for local and regional landscapes It offers an understanding of the challenges risks and uncertainties as well as opportunities to foster productive and sustainable food production Smallholder farming and agriculture in general is facing a serious threat from climate change that has resulted in erratic and unpredictable rainfall and increased temperatures among other abiotic stresses These climate change induced pressures have reduced productivity mainly among the smallholder farmers who are critical in driving the attainment of sustainable development goals like SDG 2 12 and 13 The objective of the book is to document effective and practicable practices and technologies that can be adopted by smallholder African farmers as mitigation measures against the effects of climate change This book is of interest to researchers agricultural scientists climate change scientists capacity builders and policymakers **Space, people and technology** Amira Osman, Geci Karuri-Sebina, 2023-08-25 In this book there is a call on built environment professionals to reflect on the role of narrative in shaping space influencing people and making decisions about technology It is argued that by changing the narrative and methods of representations new imaginaries can be generated and the scope of what is possible is significantly broadened Contextualized narratives vocabularies and metaphors can evoke new thinking and new practice This book looks for examples where professionals and communities have jointly worked together from the precinct to the site level The authors are especially inspired by the ideas of tinkering muddling through engaging with the mess and gnarly planning concepts that encourage experimentation and engagement with real life contexts learning through doing policy change through evolutionary processes and a hands on approach This book aims to elevate our understanding of the concepts of people centred participation and co production co creation by shifting the debate from the esoteric to the applied and contextual We believe that practice can only be transformed by transforming thinking Through the development of our own philosophies emerging from and rooted in context we may shift thinking and

practice towards people community and care *Transformative Innovation for Sustainable Human Settlements* Andrew Emmanuel Okem, Sithembiso Lindelihle Myeni, Tshepang Mosiea, 2024-11-18 This book uses the transformative innovation policy TIP as a lens to show how innovative processes practices and systems could address critical challenges and facilitate the delivery of sustainable human settlements in South Africa The TIP approach shows that addressing societal problems is not a function of a technical solution within a government department but one that requires partnership with multiple stakeholders The book argues that it is essential to understand and embrace innovation policy that is transformative and responds to the social and environmental needs at local provincial and national levels It demonstrates that innovation policy should focus on transforming the socio technical systems that demand embracing notions such as experimental delivery and learning directionality and inclusivity Chapters explore the ability of the state to transform its organisational processes and capacity to improve and align its planning implementation monitoring and evaluation systems to high levels of efficiency and sustainability targets Bringing together various theoretical and empirical perspectives on innovation in the context of sustainable human settlement this book will be of interest to scholars and students in the fields of Housing Human Settlements Architecture Public Policy Development Studies Civil Engineering Political Science and Public Administration
