Annuaire Franais Relations Internationales 2015:

Encounters between Foreign Relations Law and International Law Helmut Philipp Aust, Thomas Kleinlein, 2021-06-03 A fresh look at the bridges and boundaries between foreign relations law and public international law **Realism** Alexander Reichwein, Felix Rösch, 2020-12-26 This book examines how IR s European realist tradition evolved in Europe and due to emigration in the United States in the 20th century It includes an introduction and eight chapters focusing on historical classical and contemporary structural branches of realist IR theorizing in historical and political contexts in which realist thinking did develop It reminds us of realist key figures such as Edward H Carr John H Herz or Hans J Morgenthau but also of almost forgotten realists such as Raymond Aron Stanley Hoffmann or Nicholas J Spykman Given IR mainstream textbooks introducing realism as a conservative American Cold War theory this selection aims to reintroduce realism as a primarily and distinctively European liberal normative and critical tradition A tradition that is almost always misunderstood as a guide for practitioners how to maximize or at least preserve power in the name of the national interest no matter the cost but that is in fact an argument against reckless and crude power politics ideology and totalitarianism This book is an invaluable resource for scholars practitioners and students interested in the realist tradition in IR **Netherlands Yearbook of International Law 2015** Maarten den Heijer, Harmen van der Wilt, 2016-08-04 Jus cogens is a formidable yet elusive concept of international law Since its incorporation in the Vienna Convention on the Law of Treaties some 35 years ago it has made tentative inroads into international legal practice But its role in international law is arguably less prominent than might have been expected on the basis of its powerful potential and in view of wider developments in international law that call for constitutionalisation and hierarchy including the processes of fragmentation and humanization This volume of the Netherlands Yearbook of International Law sets out to clarify the concepts and doctrines relevant to jus cogens and to sharpen the debate on its theoretical foundations functions and legal effects To that purpose the volume brings together contributions on the genesis and function of jus cogens on the application of jus cogens in specialised areas of international law and on its enforcement and legal consequences Together they reinforce the understanding of jus cogens as a hierarchical concept of international law and shed light on its potential for further development Germany's Role in European Russia Policy Liana Fix, 2021-04-24 This book contributes to the debate about a new German power in Europe with an analysis of Germany s role in European Russia policy It provides an up to date account of Germany s Ostpolitik and how Germany has influenced EU Russia relations since the Eastern enlargement in 2004 partly along partly against the interests and preferences of new member states The volume combines a rich empirical analysis of Russia policy with a theory based perspective on Germany s power and influence in the EU The findings demonstrate that despite Germany s central role exercising power within the EU is dependent on legitimacy and acceptance by other member states *Interpretations of the United Nations Convention on the Law of the Sea by International Courts and Tribunals* Angela Del Vecchio, Roberto

Virzo,2019-04-25 This book addresses current developments concerning the interpretation of the United Nations Convention on the Law of the Sea UNCLOS on the part of international courts and tribunals It does so from different perspectives by focusing on the jurisprudence of international and regional bodies such as the International Court of Justice ICJ the International Tribunal for the Law of the Sea ITLOS the European Court of Justice ECJ and the European Court of Human Rights ECtHR as well as international arbitral tribunals and the World Trade Organization WTO Dispute Settlement Body The various contributions offer in depth analyses of issues ranging from the interaction between the sources of the International Law of the Sea to various substantial procedural and institutional aspects of the regulatory framework established by UNCLOS The book also focuses on the reference by international courts and tribunals in Law of the Sea cases to both general principles and rules concerning interpretation codified in the Vienna Conventions on the Law of Treaties

discussions of nuclear proliferation cases where states have made a deliberate policy choice of either renouncing their nuclear weapons programme or have decided to remain a threshold state The cases of South Africa Egypt and Japan will be the focus of this section The final section will examine the present state of the global nuclear non proliferation regime which most observers agree is currently facing a crisis of credibility The three pillars of this regime the Nuclear Non Proliferation Treaty NPT the Comprehensive Test Ban Treaty CTBT and the Fissile Material Cut Off Treaty FMCT will be examined This is followed by an analysis of the present trends and prospects for US Russia nuclear arms control The impact of missile defenses and the US India civilian nuclear energy co operation pact will be examined so as to ascertain whether they have weakened or strengthened the global non proliferation regime The chapters in this volume aim to document the increasing complexity of the global nuclear proliferation dynamic and the inability of the international community to come to terms with a rapidly changing strategic milieu The future in all likelihood will be very different from the past and the chapters in this volume will try to develop a framework that may help gain a better understanding of the forces that will shape the nuclear proliferation debate in the years to come
