

At the forefront of energy transition

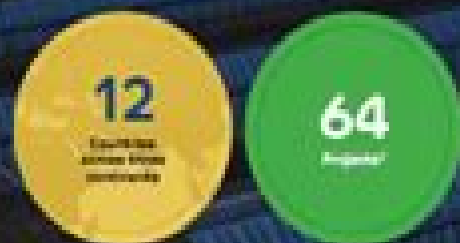

Since ACWA Power was established in the Kingdom of Saudi Arabia in 2004, the company has evolved into a leading international developer, investor and operator of a portfolio of power generation and desalinated water production plants to supply electricity and potable water to people in the Middle East and North Africa, Southern Africa, Central Asia and Southeast Asia reliably, responsibly and at low cost.

By producing power and desalinated water in this way, we provide the staples of life that support human existence, while also empowering the long-term economic development and social stability of nations we invest in and serve.

We are proud to play a vital role in the lives of millions of people in the Kingdom of Saudi Arabia and abroad.
