Annual Report On Military Expenditures 1999:

Military Expenditure Data in Africa Wuyi Omitoogun, 2003 The international reporting of military expenditure data for African states is poor in many respects Figures that are published are often at variance with the socio economic realities of the countries This study examines the availability and reliability of official military expenditure data for six countries in West Central and East Africa using a combination of interviews with key actors in the military budgeting process and analysis of official documents in the countries selected The author concludes that data are indeed available in many of these countries but that the quality of the data varies from country to country Two main factors account for this the influence of the donors of economic aid whose insistence that attain certain maximum level of expenditure on defence should not be exceeded has encouraged the manipulation of data by the countries concerned and the general loss of capacity in several countries to compile the necessary statistics

Paes, 2003-11-04 Armed forces across the globe engage in economic activities both in times of war and peace This book provides a critical analysis of this phenomenon comparing experiences with military business from four continents Asia Africa Europe and Latin America Taking an interdisciplinary approach the volume shows the implications of military business for civil military relations good governance and international development policies

Politics and the Russian Army Brian D. Taylor, 2003-06-09 Military coups have plagued many countries around the world but Russia despite its tumultuous history has not experienced a successful military coup in over two centuries In a series of detailed case studies Brian Taylor explains the political role of the Russian military Drawing on a wealth of new material including archives and interviews Taylor discusses every case of actual or potential military intervention in Russian politics from Peter the Great to Vladimir Putin Taylor analyzes in particular detail the army's behavior during the political revolutions that marked the beginning and end of the twentieth century two periods when the military was uncharacteristically heavily involved in domestic politics He argues that a common thread unites the late Imperial Soviet and post Soviet Russian army an organizational culture that believes that intervention against the country's political leadership whether tsar general secretary or president is fundamentally illegitimate

Indefensible Paul Holden, 2016-09-15 Although there is often opposition to individual wars, most people continue to believe that the arms industry is necessary in some form to safeguard our security, provide jobs and stimulate the economy. Not only conservatives but many progressives and liberals support it for these reasons. *Indefensible* puts forward a devastating challenge to this conventional wisdom which has normalised the existence of the most savage weapons of mass destruction ever known. It is the essential handbook for those who want to debunk the arguments of the industry and its supporters, deploying case studies, statistics and irrefutable evidence to demonstrate they are fundamentally flawed both factually and logically. Far from protecting us, the book shows how the arms trade undermines our security by fanning the flames of war, terrorism and global instability. In countering these myths, the book points to ways in which we can combat the arms trade's malignant influence, reclaim our democracies and reshape our economies.

Protecting Civilians Siobhán Wills, 2009-02-26 Historical review of civilian protection by UN peacekeepers. The extent to which peacekeeping and other multi-national forces have a general responsibility to protect under international humanitarian law. The extent to which peacekeeping and other multi-national forces have a general responsibility to protect under international human rights law. The applicability of occupation law to peacekeeping and other multi-national operations. Implications for peacekeepers and other multi-national forces.

Towards a Brave New Arms Industry? Richard Bitzinger, 2014-08-27 In the post Cold War era, most countries have been forced to radically reduce their arms industries and abandoned self-sufficiency in favour of a subordinate role in an increasingly globalized worldwide defence industry. This has significant implications for the future of armaments production for proliferation and for arms control.

Global Civil Society 2004/5 Helmut K Anheier, Mary Kaldor, Marlies Glasius, 2004-09-28 The war in Iraq brought global politics into the living rooms of ordinary people around the world in 2003. This defining event which influenced the domestic agenda in many countries may change the way people perceive power and the politics of power. The Global Civil Society Yearbook shows how those perceptions can be shaped by the huge diversity of individuals, movements, NGOs, networks and the ideas and values they represent, acting across borders and beyond national politics. Now in its fourth year of publication, the Global Civil Society Yearbook is the standard work on the topic, essential reading for social and political scientists, activists, students, journalists and policy makers.

Global Civil Society 2004/5 adopts an unorthodox approach to major geo-political issues including oil, the Middle East and democracy. Yahia Said examines oil and activism. Mohamed el

Said Sayed explores Middle Eastern perspectives and Heba Raouf Ezzat outlines a new multicultural approach to global civil society The emergence of what Mary Kaldor calls a new kind of global politics has implications for sovereignty and democracy which Global Civil Society 2004 5 tackles head on Hilary Wainwright identifies the conditions in which global civil society can strengthen and reinvigorate local democracy In contrast Kenneth Anderson and David Rieff question global civil society's claim to represent world opinion arguing that the hotchpotch of environmental groups feminist networks and human rights activists are merely undemocratic and unaccountable social movement missionaries Global Civil Society 2004 5 includes a wealth of data on globalisation the rule of law NGO growth values and attitudes governance civil liberties and a chronology of the myriad protests conferences and campaigns that are the sinews of global civil society Global Civil Society 2002 was a gripping read Global Civil Society 2003 was stimulating informative and authoritative I am delighted to recommend this series which fills an important gap in research on globalisation Anthony Giddens One of the great unreported events of the last decade has been the total explosion of nongovernment organisations in developing countries of the world While I was shaving the other day I looked in the mirror and thought Wow I am an NGO I have always been interested in this but I am more interested since I discovered I was one And that's why I'd recommend this Yearbook Bill Clinton
