ITC Ltd is one of the leading conglomerates with business interests in cigarettes & tobacco, packaging, agri-business, food, hotels, lifestyle retailing, personal care, paper & stationery and branded apparels. In the cigarette segment, the company enjoys more than ~ 80% market share by value in India. Despite the presence across various business segments, cigarette still draws a major part of profitability as the company operates with over 2 mn retailers across India managing one of the largest distribution networks in the country.

Major Catalysts

■ Robust FY13 performance driven by better product mix

ITC has posted 22% growth in consolidated net profit at ₹76.1 bn in FY'13, mainly on account of strong performance across all financial parameters, leveraging its corporate strategy of creating multiple drivers of growth. Net revenue surged 19.4% YoY to ₹316.3 bn, due to 26% YoY growth both from its Agri and other non-cigarette FMCG segment and ~16% YoY growth from its cigarette segment. Better revenue mix, higher operational efficiency and significant cigarette price rise enabled ITC to expand EBITDA margin by 50 bps YoY to 35.7% in FY'13. Going forward, we expect margin to grow at ~37% in FY14E.

■ Growth in leaf tobacco exports resulted in strong revenue growth

ITC's Agri business reported a sales growth of 26% YoY to ₹72.0 bn in FY'13, driven by strong performance of leaf tobacco exports. Currently, agri business which contributes ~20% to the total revenues is the fastest growing business followed by FMCG segment, which contributing ~ 25% to the revenues. The company trades in agriculture product like tobacco leaves, soya, wheat and coffee; where the company enjoys strong competencies in procurement which has been created by long-term association with farmers through its E-choupal program. ITC has recently commissioned a threshing plant in Mysore having an annual capacity of 35 mn kgs green leaf tobacco, which in turn will augur well for the company.

■ Non cigarette FMCG business will provide strong earning visibility

ITC's non-cigarette FMCG business grew by 26% YoY in FY'13, surpassing the industry growth, a sign that ITC is fast gaining market share in the Indian FMCG industry, which is still dominated by HUL, with a 15% market share. In a short span of time, ITC has penetrated successfully in segments like food & confectionery and personal care products. The company has leveraged its strong distribution network developed over the years for its cigarette business to penetrate the FMCG market. The company plans to enter into dairy products soon. Its foods division already has positive cash flows; the personal care division would take at least another six months to turn positive. Consequently we expect non-cigarette businesses to add to the earnings in FY'15 in a better way.
