Hegemonic Mimicry Kyung Hyun Kim, 2021-09-13 In *Hegemonic Mimicry* Kyung Hyun Kim considers the recent global success of Korean popular culture the Korean wave of pop music cinema and television which is also known as hallyu from a transnational and transcultural perspective Using the concept of mimicry to think through hallyu's adaptation of American sensibilities and genres he shows how the commercialization of Korean popular culture has upended the familiar dynamic of major to minor cultural influence enabling hallyu to become a dominant global cultural phenomenon At the same time its worldwide popularity has rendered its Koreanness opaque Kim argues that Korean cultural subjectivity over the past two decades is one steeped in ethnic rather than national identity Explaining how South Korea leaped over the linguistic and cultural walls surrounding a supposedly minor culture to achieve global ascendance Kim positions K pop Korean cinema and television serials and even electronics as transformative acts of reappropriation that have created a

hegemonic global ethnic identity
