Newtonianism and by the second half of the century Wolffianism also started to spread among Dutch academics. Once the Republic started to crumble Dutch enlightened discourse took a political turn but with the exception of Frans Hemsterhuis who chose to ignore the political crisis it failed to produce original philosophers. By the end of the century the majority of Dutch philosophers typically refused to embrace Kant's transcendental project as well as his cosmopolitanism. Instead early nineteenth century Dutch professors of philosophy preferred to cultivate their joint admiration for the Ancients. Annual Report United States. Board for International Broadcasting, 1986. Europe in Its Own Eyes, Europe in the Eyes of the Other David B. MacDonald, Mary-Michelle DeCoste, 2014-04-23. What is Europe? Who is European? What do Europe and European identity mean in the twenty first century? This collection of sixteen essays seeks to answer these questions by focusing on Europe as it is seen through its own eyes and through the eyes of others across a variety of cultural texts including sport film literature dance cartography and fashion. These texts as interpreted here by emerging researchers as well as well established scholars enable us to engage with European identities in the plural and to understand what these identities mean in larger cultural and political contexts. The interdisciplinary focus of this volume permits an exploration of European identity that reaches beyond the area of European studies to incorporate understandings of identity from the viewpoints of both insider and other. Contributors explore diverse understandings of what it means to be other to a country a culture a society or a subgroup. This book offers a fresh perspective on the evolving concept of identity in the context of Europe's past present and future and expands on the existing literature by considering the political tensions and social implications of the development of European identity as well as its literary artistic and cultural manifestations. *The Spaghetti Western* Bert Fridlund, 2006-11-10. The 1960s and 1970s were the heyday of spaghetti westerns low budget films about the early American West mostly filmed in Italy. Though sometimes derided as excessively violent imitations of American made westerns they attracted a substantial following that has endured. With its classic elements of gunfights gambling heroes sidekicks love and death the genre is now perceived by critics as an intriguing object of study. This book analyzes the construction of the stories presented in spaghetti westerns. It examines the content of the Italian western using concepts and constructs borrowed from scholars studying pre industrial narratives. Plot the constellation of characters their relationship to each other and their motives are studied. Films examined in detail include the seminal *A Fistful of Dollars* as well as *Django For a Few Dollars More* and *The Good the Bad and the Ugly*. There is also a discussion of the early spaghetti westerns. The study then probes the elements of bounty hunters the deprived hero partnerships betrayal and comedy. An appendix details the top grossing Italian westerns between 1964 and 1975 including title director lead actor and intake. A second appendix provides a list of films quoted by Italian title and then by English title. *Opera Companies and Houses of Western Europe, Canada, Australia and New Zealand* Karyl Lynn Zietz, 2024-10-15.
