

The Kawasaki KS 125 is a spanking new enduro, from the bottom of its tires to the tip of its handlebars.

For off-road handling and balance, it's got a narrow lightweight frame, a narrow engine, a long wheelbase with a 21 inch front tire, a forged alloy steering bracket, and a lot of travel in the fork. And it's got a saddle that's wide enough for easy sitting without being too wide for easy standing.

To get the KS 125 moving, we gave it a brand new 125cc two-stroke rotary valve engine

with quiet manners and a super wide power band. As well as a 6-speed transmission to move that power into a 32° climb.

And even though we designed it as a dirt bike, we gave it everything you need and more, to give you a smooth lightweight street bike in the bargain.

Just in case you can tear yourself away from tearing around the countryside.
