

FOR FAST LEARNERS.

The Yamaha YZ80 is built for beginners who want to become winners. Fast.

And with all the improvements for 1991, the new YZ80 will be starting out experienced riders even faster than ever. We've changed just about everything but the color.

Yamaha wants the look on two wheels to feel right. Now we're asserting it with innovations that make the YZ80's 749cc power plant lighter yet more powerful—there are 23 more horsepower with greater acceleration.

Our revised steel rails frame features massive strength for the head and eliminates extra stress for shock. A top speed close to 100 mph means you can do all the new tracks most efficiently.

The engine and the only innovation. The top end, now handling suspension, has increased wheel travel at both ends. The swingarm front helps turn a full 180° of travel while the rear has been increased to 180°—a 180° increase in both.

What keeps it all together is the exclusive Yamaha Mono shock—the best way yet devised to keep the bike's rear wheel on the ground even over the roughest obstacles. And it's the only rear suspension system that's instantly adjustable to suit different riders and tracks.

Like now you get the most track access for your money, we've added larger diameter front tires, with a better gripping pattern, increased the ground clearance to 2.5 inches. And moved the seat forward 3 inches for better stability.

The YZ80 for 1991 will just styled like our big pro YZ's. It's built like them, with all the features. So it's the perfect one for young riders to learn on. And win on.

The revised Mono shock is now adjustable to suit your riding style.
