Heritage Conservation and Research in India Gabriela Krist, Tatjana Bayerová, 2010 2009 marked the 60th anniversary of the diplomatic relations of the Republic of India and the Republic of Austria The Conservation Department of the University of Applied Arts Vienna presents this volume largely based on papers reported at the conference Cultural Heritage Counts Research Conservation and Management held in New Delhi in August 2009 The conference was a crucial contribution initiated by the Austrian Cultural Forum New Delhi to celebrate this important jubilee The successful and intensive cooperation of both countries in the fields of the research and conservation of cultural heritage is reflected in numerous research and conservation projects presented in this book Literacy in School and Society Elizabetta Zuanelli Sonino, 2013-06-29 The function and notion of literacy may be considered the keystone a filigree principle underlying the educational social and cultural organiza tion of the societies of the twentieth century It is therefore interesting to try to

pinpoint the notion and its implications at the turn of the century by focusing the attention of scholars from various disciplines sociolinguistics psychology psycholinguistics and pedagogy on the subject This is the purpose of this volume which originated from an inter disciplinary meeting on trends in and problems of research on early literacy through mother tongues and or second languages held in Venice under the auspices of the University of Venice and in particular of the Seminario di Linguistica e di Didattica della Lingue and the Centro Linguistico Interfacoltà and the Municipality of Venice together with UNESCO and AILA A first far reaching question touches on the role assigned to or fulfilled by mass literacy in modern society The concept of literacy considered as a social achievement an essential component in the process of education to be institutionally prompted and controlled fluctuates between two opposite poles A polemic destructive view considers the notion and the educational practices connected with it as a potent instrument of social control a tool for social reproduction and consensus On the other side a plurifunctional constructive view considers the acquisition and maintenance of different languages via educational institutions as a concrete possibility for the defense and maintenance of cultural pluralism and identity be it social ethnic or religious
