and extending through the 1975 model year the K suffix often but not always changed on an annual basis K0 was normally used to indicate the first model in the series with updated versions identified as K1 K2 K3 etc While the K number designations continued in use outside the USA through 1978 in September 1973 American Honda adopted a year identifier within the model number for example a CB750K 76 would be a 1976 USA model but in most other countries that same model would be identified as a CB750K6 Setting this potential for confusion aside we can state that this manual covers the 1969 through 1978 S O H C CB750K and CB750F models The CB750 was a true superbike but it was also readily available and reasonably priced After its initial launch in 1969 the CB750 remained in production virtually unchanged through 1978 With a 10 year production run of approximately 450 000 units no one could have anticipated that it was destined to become a collector s item Consequently we are pleased to offer this updated and expanded version of the original Floyd Clymer manual as a service to all 750cc S O H C Honda owners enthusiasts and restorers worldwide Finally please note that the text in the original manual was translated from Japanese into English Consequently some of the phrasing grammar punctuation and word usage may be subtly different from that commonly used in the English language However the information as presented is readily understandable In addition while we have done our best to identify any anomalies and errors that may have occurred during the original translation process we are certain that we will have missed one or two and we request your indulgence in ignoring them
