Afrikaans Linguistics WAM Carstens, Nerina Bosman, 2024-10-03 Offering a contemporary exploration of the multifaceted landscape of Afrikaans linguistics *Afrikaans Linguistics Contemporary Perspectives* marks a seminal contribution to the field. This volume for the first time presents accessible insights into diverse linguistics subdisciplines inviting international scholars to familiarise themselves with Afrikaans language studies. Throughout much of the late 19th and 20th centuries Afrikaans scholars predominantly communicated in Afrikaans resulting in a significant gap in the dissemination of knowledge about the language. The chapters in this book written by prominent South Africans as well as international scholars working in the field of Afrikaans serve as a pivotal bridge by providing essential historical context while also paying attention to the development of Afrikaans linguistics during the 20th century. The primary focus remains on illuminating 21st century research trajectories offering a comprehensive snapshot of contemporary scholarship in Afrikaans linguistics. **South African national bibliography**, 1999 Classified list with author and title index. **Psychosocial Pathways Towards Reinventing the South African University** Sabrina Liccardo, 2020-11-02 This book proposes a conceptual empirical framework for exploring forms of continuity and change along psychosocial pathways in South African universities. It illustrates how the psychosocial pathways are grounded in the symbolic narratives and knowledges of young scientists, engineers and architects, all interlocutors in the research from which this book is based. Alala Mamoratwa, Welile Odirile, Kaiya Amirah Takalani, Nosakhele Naila Ambani, Khanyisile Itumeleng Ethwasa and Kgnaya provide collective standpoints in the multiplicities within and between the lived lives and told stories of young Black South African women in Science, Technology, Engineering and Mathematics (STEM) fields. In doing so, this compelling work advances possibilities for demythologising scientific endeavour as a white male achievement and shifting knowledge communities across gendered, racialised, class and national divides. This book presents an innovative narrative methodology utilising the myth of the Minotaur to examine the state of the university at the heart of the hierarchical labyrinth in post-apartheid South Africa. Throughout the work, the author wrestles with and self-reflexively highlights her own positionality as a white middle-class South African woman to examine how this affects the production of this research in ways which serve to preserve the colonial knowledge system. With the rise of the Rhodes Must Fall and Fees Must Fall student movement in South Africa demanding for the fall of institutionalised racial hierarchies, the author uses the cover image of narrative formations in the spirit of exploration to think with and through undulating networked forms that could possibly forge new psychosocial pathways towards decolonising and reinventing South African universities. This work offers a unique conceptual and methodological resource for students and scholars of psychosocial and narrative theory as well as those who are concerned about the politics of higher education both in South Africa and in other contexts around the world.
