

Analysis of a Squirrel Gene Pool

Suppose that, after observing that a squirrel population is quite diverse and that between 1975 and 1995, there appeared to have been a decline in the size of the population, you decide to investigate the genetics of this population. You collect the following data. Assuming that the data represent the entire population, is the population structure healthy? The data collected are presented in the table below. Are the data healthy? Explain your reasoning. (You may assume that the population is in Hardy-Weinberg equilibrium.)
