The Ufo-Christianity Connection Fred R. David,2010-11-15 For many centuries science and religion have remained staunchly independent Whenever issues have developed that simultaneously touched on both areas debate often ensuedfor

example when scientists first proposed that the earth revolved around the sun or when the theory of evolution was proposed. There has always been a cultural disconnect between science and religion that has caused dissention and distrust. Research conducted by author Fred R. David however reveals that the missing link between science and religion may be UFOs or more specifically the beings inside those crafts. *The UFO Christianity Connection: Fact or Fiction* reveals that UFOs played a significant role in how ancient civilizations built megalithic structures and predicted celestial events perfectly. It brings to life the close association that ancient civilizations had with ancient astronauts whom they called gods or sky people. It reveals that many events described in ancient writings including the Bible involved UFO encounters. It gives readers a unique perspective to engage others in discussing angels, God, UFOs, Bigfoot, Satan, giants, the underworld, the flood, Atlantis, and Jesus. The scientific information presented here is vital for people of all faiths on all continents. Explore the missing link that bridges the gap between science and religion.

Ufos A. R. Roberts, 2016-12-01. *UFOs: What Is the Government Really Covering Up?* is not just another book about the 1947 Roswell crash. Ingeniously, Roberts takes a step back and offers an in-depth survey of the UFO phenomenon as a whole. Using familiar case studies of alien encounters as examples, he casts a wide net that shows a clear pattern of extraterrestrial visitation and the ensuing cover-up by US and world governments. In the end, the reader cannot help coming away with the same conclusion: that something is going on and our government knows it. A must-read for those interested in ufology, conspiracy theories, and ancient aliens. Rita Louise, PhD, author of *ET Chronicles: What Myth and Legend Say about Human Origin*. While a seemingly unexplained event in Roswell, New Mexico, in 1947 exposed the American people to the phenomenon of unidentified flying objects or UFOs, these mysterious sightings have a history that reaches far back into our collective past. Ancient megalithic structures, biblical stories, and even prehistoric art and cave paintings point to the existence of nonterrestrial life, and with advanced technology, new recordings, and the Internet, more evidence points to their continued presence today. Why then do we, the public, know so little? Why has the media ignored credible reports from eyewitnesses and ufologists? And why have world governments suppressed these facts from their citizens? The UFO enigma is an extremely complex jigsaw puzzle comprised of many pieces. However, they fit together in a way that presents a cohesive theory when you connect all the dots.

Invader Moon Rob Shelsky, 2016-02-23. A UFO investigator presents a provocative theory about how the moon got here, who brought it here, and why, with fascinating historical evidence. Was the moon always in our skies? UFO investigator Rob Shelsky doesn't think so. In *Invader Moon*, he reveals the secret history of a time before the moon, its dramatic arrival, and its momentous impact on Earth's civilizations. Shelsky contends that there were two distinct civilizations on our planet: ours and one before ours. He goes on to suggest that the earlier civilization did not originate on Earth. When it arrived here, it brought the moon along with it. Offering more than mere conjecture, Shelsky supports his theory with physical and archeological evidence, historical records, and oral histories from around the world.
