Arua,Kehinde Ayoola,2014-11-24 This book brings together the seminal contributions of scholars interested in the study of language literature and style in Africa It marks a response to the longstanding neglect of stylistic analysis of canonical and emergent fictional and non fictional African prose and discourse As a reaction to this neglect of African literary artefacts the book provides a welcome and timely deviation from the norm The contributions to this volume include discussions that are both analytical and theoretical analyses of style at the levels of lexis and semantics newer and more innovative analyses that highlight the relationship between style pedagogy and technology mediated discourse and a final discussion that provides an appropriate background against which issues related to language literature and style can be understood In terms of the volumes representation of diverse geographical contexts the papers included here bridge the North South divide in Africa and there are contributions from Libya Nigeria South Africa and Zimbabwe As such the book is an interesting collection of papers that illuminate the study of literary style in Africa and highlight the need for a greater revival of it on a larger scale
