Expository Writing in Political Science Diane E. Schmidt, 1993 **Syllabus** ,1981 **Report of the Proceedings of the Second General Peace Congress Held in Paris on ;the 22nd, 23rd and 24th of August, 1849** ,1849 *Report of the Proceedings of the ... General Peace Congress* ,1849 **Natural Law Theories in the Early Enlightenment** T. J. Hochstrasser, 2000-09-14 This major addition to Ideas in Context examines the development of natural law theories in the early stages of the Enlightenment in Germany and France T J Hochstrasser investigates the influence exercised by theories of natural law from Grotius to Kant with a comparative analysis of the important intellectual innovations in ethics and political philosophy of the time Hochstrasser includes the writings of Samuel Pufendorf and his followers who evolved a natural law theory based on human sociability and reason fostering a new methodology in German philosophy This book assesses the first histories of political thought since ancient times giving insights into the nature and influence of debate within eighteenth century natural jurisprudence Ambitious in range and conceptually sophisticated Natural Law Theories in the Early Enlightenment will be of great interest to scholars in history political thought law and philosophy **Topographies of Fascism** Nil Santianez, 2013-10-28 Topographies of Fascism offers the first comprehensive exploration of how Spanish fascist writing essays speeches articles propaganda materials poems novels and memoirs represented and created space from the early 1920s until the late 1950s Nil Santi ez contends that fascism expressed its views on the state the nation and the society in spatial terms for example the state as a building the nation as an organic unity and society as the people s community just as its adherents celebrated fascism in its architecture public spectacles and military rituals While Topographies of Fascism centres on Spain a nation that produced a large number of fascist texts focused on space it also draws on works written by key German Italian and French fascist politicians and intellectuals Ultimately it provides an innovative model for analyzing the comparable yet often overlooked strategies of symbolic representation and production of space in fascist political and cultural discourse *Jurisprudence in the Mirror* Luka Burazin, 2024-08-28 There is something quite puzzling about the global conversation on jurisprudence On the one hand jurisprudence is supposed to deal with abstract questions concerning the nature structure and distinctive features of the law These questions are not tightly associated with or dependent on the particular legal practices in one jurisdiction or another But on the other hand it seems that jurists are tacitly affected by their background institutional context there is an evident divide between theorizing about the law in the civil law world and in the common law world *Jurisprudence in the Mirror The Common Law World Meets the Civil Law World* systematically presents the major achievements of contemporary civil law jurisprudence to the common law world and bridges the gap in analytic jurisprudence as it is currently practiced in the two traditions The volume seeks to bring different voices to the table and overcome the cultural and linguistic divides that have created barriers in philosophical exchanges The book s structure is dialogical it includes twelve essays written by prominent and influential jurists from the civil law world each followed

by a response by a jurisprudent from the common law world This approach highlights what the two worlds share where they part ways and why The varied contributions reveal how their respective legal traditions shape fundamental legal concepts and jurisprudential debates and will be invaluable to readers from both the civil and common law worlds **Journal of Legal Education** ,1955 **Aspects of Population Growth Policy** United States. Commission on Population Growth and the American Future,1972 *Research Reports* United States. Commission on Population Growth and the American Future,1972 **Energy and Economic Myths** Nicholas Georgescu-Roegen,2014-05-18 Energy and Economic Myths Institutional and Analytical Economic Essays is a collection of materials that deal with various issues and concerns in economics The title aims to clarify the misconception in economics The first part of the text deals with the issues in natural resources and the economics of production Next the selection tackles the problems in institutional economics Part III covers the epistemological and methodological concerns in economics The title also talks about economic theories The book will be of great interest to economists and readers who want to enhance their understanding of economic concepts *Legal Duties and Other Essays in Jurisprudence* Carleton Kemp Allen,1931 **The Mirror and the Lamp** Meyer Howard Abrams,1971 This highly acclaimed study analyzes the various trends in English criticism during the first four decades of this century English Legal History and its Sources David J. Ibbetson,Neil Jones,Nigel Ramsay,2019 A Festschrift in honour of Professor Sir John Baker presented by leading scholars on the sources of English legal history A History of Anthropological Theory, Fifth Edition Paul A. Erickson,Liam D. Murphy,2017-01-01 An accessible and engaging overview of anthropological theory that provides a comprehensive history from antiquity through to the twenty first century The fifth edition has been revised throughout with substantial updates to the Feminism and Anthropology section including more on Gender and Sexuality and with a new section on Anthropologies of the Digital Age Once again A History of Anthropological Theory will be published simultaneously with the accompanying reader mirroring these changes in the selection of readings so they can easily be used together in the classroom Additional biographical information about some of theorists has been added to help students **Resources in Education** ,1994 *A Critical Dictionary of English Literature and British and American Authors, Living and Deceased, from the Earliest Accounts to the Latter Half of the Nineteenth Century* Samuel Austin Allibone,1871 **The Bookman** ,1897 *The Ubiquitous Siva* John Nemec,2011-07-22 John Nemec examines the beginnings of the non dual tantric philosophy of the famed Pratyabhijna or Recognition of God School of tenth century Kashmir the tradition most closely associated with Kashmiri Shaivism In doing so it offers for the very first time a critical edition and annotated translation of a large portion of the first Pratyabhijna text ever composed the Sivadrsti of Somananda In an extended introduction Nemec argues that the author presents a unique form of non dualism a strict pantheism that declares all beings and entities found in the universe to be fully identical with the active and willful god Siva This view stands in contrast to the philosophically more flexible panentheism of both his disciple and commentator Utpaladeva and the very

few other Saiva tantric works that were extant in the author's day Nemec also argues that the text was written for the author's fellow tantric initiates not for a wider audience. This can be adduced from the structure of the work, the opponents the author addresses and various other editorial strategies. Even the author's famous and vociferous arguments against the non-tantric Hindu grammarians may be shown to have been ultimately directed at an opposing Hindu tantric school that subscribed to many of the grammarians' philosophical views. Included in the volume is a critical edition and annotated translation of the first three of seven chapters of the text along with the corresponding chapters of the commentary. These are the chapters in which Somananda formulates his arguments against opposing tantric authors and schools of thought. None of the materials made available in the present volume has ever been translated into English apart from a brief rendering of the first chapter that was published without the commentary in 1957. None of the commentary has previously been translated into any language at all.

One Hundred Years of Homosexuality David M Halperin, 2012-07-26 Halperin's subject is the erotics of male culture in ancient Greece. Arguing that the modern concept of homosexuality is an inadequate tool for the interpretation of these features of sexual life in antiquity, Halperin offers an alternative account that accords greater prominence to the indigenous terms in which sexual experiences were constituted in the ancient Mediterranean world. Wittily and provocatively written, Halperin's meticulously drawn windows onto ancient sexuality give us a new meaning to the concept of Greek love.
