Moral Exemplars in the Analects Amy Olberding, 2013-03-01 In this study Olberding proposes a new theoretical model for reading the Analects Her thesis is that the moral sensibility of the text derives from an effort to conceptually capture and articulate the features seen in exemplars exemplars that are identified and admired pre theoretically and thus prior to any conceptual criteria for virtue Put simply Olberding proposes an origins myth in which Confucius already and prior to his philosophizing knows whom he judges to be virtuous The work we see him and the Analects authors pursuing is their effort to explain in an organized generalized and abstract way why pre theoretically identified exemplars are virtuous Moral reasoning here begins with people and with inchoate experiences of admiration for them The conceptual work of the text reflects the attempt to analyze such people and parse such experiences in order to distill abstract qualities that account for virtue and can guide emulation

The Structure of Small Molecules and Ions Ron Naaman, Zeev Vager, 2012-12-06 The workshop on The structure of small molecules and ions was held at the Neve Han guest house near Jerusalem Israel on December 13 to 18 in memory of the late Professor Itzhak Plesser Professor Plesser played a central role in the research done both at the Weizmann Institute and at Argonne National Laboratories on the Coulomb explosion method His friends honored his memory by organizing a meeting in which subjects related to Plesser s interests would be discussed Just a week before the conference started we were struck by another tragedy the death of our graduate student Ms Hana Kovner who participated in many of the Coulomb explosion experiments at the Weizmann Institute We would like to dedicate these proceedings to her memory as well The goal of the workshop was to bring together chemists and physicists working on different aspects of the structural problems of small molecular entities The time seemed appropriate for discussing experimental and theoretical concepts since in recent years new methods have been introduced and a large amount of

information has been accumulated on systems not studied before like unstable molecules ions van der Waals molecules and clusters The program of the workshop reflects we believe these new developments The meeting was characterized by intensive discussions in which the weak nesses and strengths of new and of well established concepts were revealed We hope that it measured up to the high standards Itzhak Plesser maintained all through his scientific life

Redeeming the Southern Family Scott Stephan,2011-12-01 In the years leading up to the Civil War southern evangelical denominations moved from the fringes to the mainstream of the American South Scott Stephan argues that female Baptists Methodists and Presbyterians played a crucial role in this transformation While other scholars have pursued studies of southern evangelicalism in the context of churches meetinghouses and revivals Stephan looks at the domestic rituals over which southern women had increasing authority from consecrating newborns to God s care to ushering dying kin through life s final stages Laymen and clergymen alike celebrated the contributions of these pious women to the experience and expansion of evangelicalism across the South This acknowledged domestic authority allowed some women to take on more public roles in the conversion and education of southern youth within churches and academies although always in the name of family and always cloaked in the language of Christian self abnegation At the same time however women s work in the name of domestic devotion often put them at odds with slaves children or husbands in their households who failed to meet their religious expectations and thereby jeopardized evangelical hopes of heavenly reunification of the family Stephan uses the journals and correspondence of evangelical women from across the South to understand the interconnectedness of women s personal family and public piety Rather than seeing evangelical women as entirely oppressed or resigned to the limits of their position in a patriarchal slave society Stephan seeks to capture a sense of what agency was available to women through their moral authority
