Statistics Erich L. Lehmann,2011-07-25 Classical statistical theory hypothesis testing estimation and the design of
experiments and sample surveys is mainly the creation of two men Ronald A Fisher 1890 1962 and Jerzy Neyman 1894 1981
Their contributions sometimes complemented each other sometimes occurred in parallel and particularly at later stages often
were in strong opposition The two men would not be pleased to see their names linked in this way since throughout most of
their working lives they detested each other Nevertheless they worked on the same problems and through their combined
efforts created a new discipline This new book by E L Lehmann himself a student of Neyman s explores the relationship
between Neyman and Fisher as well as their interactions with other influential statisticians and the statistical history they
helped create together Lehmann uses direct correspondence and original papers to recreate an historical account of the
creation of the Neyman Pearson Theory as well as Fisher s dissent and other important statistical theories *Language Arts
