Out-of-School-Time STEM Programs for Females Lynda R. Wiest, Heather Glynn Crawford, Jafeth E. Sanchez, 2021-01-01 Vol II Short Term Programs features eight OST STEM programs for females from across the United States that run one to three days in length in most cases a single day In this book the chapter authors describe their programs the effectiveness of those programs and practical implications of their program evaluation data This book series is the first of its kind to offer researchers educators school administrators policy makers and others detailed insight into the promise and practice of out of school time STEM programs for females Science technology engineering and mathematics STEM disciplines play a pivotal role in societal progress and economic prosperity in addition to enhancing individual lives However U S students lack strong STEM performance in an international context The pool of STEM proficient workers is thus insufficient to fuel the nation with females being one group that is noticeably absent Out of school time OST programs which are on the rise are increasingly suggested as a way to support and encourage underrepresented groups in STEM Participants in OST programs have shown improved achievement interest and confidence in STEM as well as greater awareness of STEM role models and careers
