T. Cook,2016-08-01 So far as I know there has never yet been compiled for the illustration of any collection of paintings whatever a series of notes at once so copious carefully chosen and usefully arranged as this which has been prepared by the industry and good sense of Mr Edward T Cook to be our companion through the magnificent rooms of our own National Gallery without question now the most important collection of paintings in Europe for the purposes of the general student Of course the Florentine School must always be studied in Florence the Dutch in Holland and the Roman in Rome but to obtain a clear knowledge of their relations to each other and compare with the best advantage the characters in which they severally excel the thoughtful scholars of any foreign country ought now to become pilgrims to the Dome such as it is of Trafalgar Square **The Oil Paintings of Arthur Streeton in the National Gallery of Australia** Mary Eagle,National Gallery of Australia,1994 This publication focuses on the Gallery s collection of 46 Streeton works ranging from Sandrige painted on cigar box wood in 1884 through to his late canvas In a London garden c1934 Tracing Streeton s career the book tells how he painted his youthful works of the 1880s and 90s alongside artist friends Charles Condor and Tom Roberts camping in a farmhouse overlooking the Yarra River at Heidelberg near Melbourne and then with Roberts on the shores of Sydney harbour He painted in London from 1897 before returning to spend the last two decades of his life working in Melbourne where his late work evoked a peaceful pastoral Australia *Pacific Art* Anita Herle,2002-01-01 Contributors explore the complex relations among Pacific artists patrons collectors and museums over time as well as the different meanings given to art objects by each *Hearings* United States. Committee on Appropriations,1944 **National Galleries** Simon Knell,2016-01-22 Are national galleries different from other kinds of art gallery or museum What value is there for the nation in a collection of international masterpieces How are national galleries involved in the construction national art National Galleries is the first book to undertake a panoramic view of a type of national institution which are sometimes called national museums of fine art that is now found in almost every nation on earth Adopting a richly illustrated globally inclusive comparative view Simon Knell argues that national galleries should not be understood as great galleries but as peculiar sites where art is made to perform in acts of nation building A book that fundamentally rewrites the history of these institutions and encourages the reader to dispense with elitist views of their worth Knell reveals an unseen geography and a rich complexity of performance He considers the ways the national galleries entangle art and nation and the differing trajectories

and purposes of international and national art Exploring galleries artists and artworks from around the world National Galleries is an argument about how we think about and study these institutions Privileging the situatedness of each national gallery performance and valuing localism over universalism Knell looks particularly at how national art is constructed and represented He ends with examples that show the mutability of national art and by questioning the necessity of art nationalism **Independent Offices Appropriation Bill for 1947** United States.
