

CONTINUOUS REINFORCEMENT

Continuous reinforcement is a behavior reinforcement schedule where the target behavior is rewarded every time it occurs.

EXAMPLES

- **Gold Stars for Correct Spelling:** When checking the spelling tests of students, the teacher puts a gold star sticker next to each word spelled correctly.
- **Sales Commissions:** A company gives a small commission to the salesperson for each sale they make.
- **Online Phonics Game:** Every time the player chooses the correct option, a bright colored bell appears and jingles a few seconds.

PARTIAL VS CONTINUOUS

Partial Reinforcement

A reinforcement schedule where a response is only reinforced some of the time, rather than every time it occurs.

Continuous Reinforcement

A reinforcement schedule where a response is reinforced every time it occurs.

Kaplan and Sadock's Study Guide and Self-examination Review in Psychiatry Benjamin J. Sadock, Virginia A. Sadock, Ze'ev Levin, 2007 This study guide is an excellent aid in preparing for boards and other psychiatry exams and in reinforcing a student's knowledge. It offers chapter overviews of Synopsis Tenth Edition and more than 1 600 multiple choice questions with discussions of correct and incorrect answers.

Sample Math Level 1 Teacher's Manual Janice L. Semple, Linda Lee, 2005 The Level 1 Teacher's Manual focuses on addition while developing many related skills. Each of the 52 lessons begins with a measurable objective and includes a clear teaching activity, numerous optional games, activities, and ideas for teacher-made supplemental materials. Added sections such as special problems and older students assist the educator in adapting the program to the spectrum of learning challenges. Available Fall 2005 the Second Edition Level One Teacher's Manual has been revised by the original author. Letter to the Reader: Sample Math is a complete basic skills mathematics program for students of all ages and all learning abilities. We use a carefully ordered sequence of associative mnemonics in order to embed an accurate understanding of math concepts and skills in the long-term memory of our students; hence the expression "Simply Unforgettable." We do not ask students to memorize math facts through repetition. We do not use learning by rote methods that teach only to a student's short-term memory. We have never encountered a math program or a supplemental material based entirely on learning by association nor have we ever encountered a program that has enjoyed our level of success with all students across the learning spectrum. Now in its 25th year the program has undergone both a business reorganization and a long-awaited revision of the Level One Teacher's Manual by the original author, Jan Semple. Sample Math materials were formerly distributed by Stevenson Learning Skills Inc. Moving forward, Sample Math Inc., a new company founded by members of the Semple family, will actively market our program while safeguarding the integrity of this tried and true process. For more information, please visit us at www.samplemath.com. William W. Semple, President and Co-founder, Sample Math Inc.
