Syntactical Approaches in Architecture: Emerging Research and Opportunities Lee, Ju Hyun, Ostwald, Michael J., 2019-12-20 Shape grammar and space syntax have been separately developed but rarely combined in any significant way The first of these is typically used to investigate or generate the formal or geometric properties of architecture while the

second is used to analyze the spatial topological or social properties of architecture Despite the reciprocal relationship between form and space in architecture it is difficult to conceptualize a completed building without a sense of both of these properties the two major computational theories have been largely developed and applied in isolation from each another Grammatical and Syntactical Approaches in Architecture Emerging Research and Opportunities is a critical scholarly resource that explores the relationship between shape grammar and space syntax for urban planning and architecture and enables the creative discovery of both the formal and spatial features of an architectural style or type This book furthermore presents a new method to selectively capture aspects of both the grammar and syntax of architecture Featuring a range of topics such as mathematical analysis spatial configuration and domestic architecture this book is essential for architects policymakers urban planners researchers academicians and students *The Army List* ,1910
