Managing Customer Value: One Step At A Time (Second

Edition) Dilip Soman,Sara N-marandi,2022-05-10 How do you take an individual who has never done business with your organization and gradually transform them into the best possible customer How do you decide how much to spend on various marketing actions How do you think about the pricing decision with a view to optimizing the value of your customers as assets Where do you start what tools do you use and what heuristics are useful in making these decisions This book attempts to answer questions such as these The one sentence summary of the answer though is simple hold the individual s hands and walk them up a value ladder one step at a time This book is written for an advanced student of business and the practicing manager It presents an integrated view of the marketing function In particular it focuses on all the activities that a firm engages in to create and manage value not just the customer facing activities It links the traditional views of customer value with the finance accounting human resources organizational behaviour information technology and operations functions of the organization It draws on the science of behaviour change and the data sciences to present a contemporary view of the customer value function The content is meant to be prescriptive it describes a process for value creation and management yet analytical theoretical yet empirically driven It urges the reader to think about the customer value function to be organized along activities that the firm would like the customers to engage in not activities that the firm engages in It presents a framework that is not only conceptually driven but also has a sound mathematical basis **Decolonising**

Restorative Justice Leanne Alexis Levers,2023-09-01 This book critically examines the colonial dimensions of restorative justice through the lens of justice policy reform in Jamaica Restorative justice is not new Practices of restitution can be found throughout history predominantly in non Western traditions and religions One of the key principles of restorative practices is contextualisation That is restorative practices are developed and embedded within the political economic and cultural context of the communities in which they are practised Many of the countries that have gone on to develop restorative justice as part of their formal justice system have developed their policy on the model of their indigenous communities for example in Canada and in New Zealand However with the globalisation of restorative practices within the past decade many countries have sought to colonise restorative justice by developing a standardised best practice approach Instead of a practice that is developed and formed by its community colonised restorative justice dictates that one size fits all Examined through the lens of the development and implementation of restorative justice policies in Jamaica this book argues that this Westernised approach diminishes the effectiveness of restorative justice in its capacity to address the victim s needs to hold the offender accountable in a way that reintegrates them into society and to empower the community by involving them in the provision of justice to victims Restorative justice then must be decolonised and local indigenous practices acknowledged if it is to achieve its aims This book will be of interest to a range of scholars with interests in decolonisation as well as alternative dispute resolution especially those in sociolegal studies criminology human rights social policy political science and Caribbean studies **Free Will 2nd Edition** Kevin Timpe,2013-01-24 A comprehensive and accessible introduction to contemporary

Empathy as Dialogue in Theatre and Performance Lindsay B. Cummings, 2016-07-12 Empathy has provoked equal measures of excitement and controversy in recent years For some empathy is crucial to understanding others helping us bridge social and cultural differences For others empathy is nothing but a misguided assumption of access to the minds of others In this book Cummings argues that empathy comes in many forms some helpful to understanding others and some detrimental Tracing empathy's genealogy through aesthetic theory philosophy psychology and performance theory Cummings illustrates how theatre artists and scholars have often overlooked the dynamic potential of empathy by focusing on its more monologic forms in which spectators either project their point of view onto characters or passively identify with them This book therefore explores how empathy is most effective when it functions as a dialogue along with how theatre and performance can utilise the live emergent exchange between bodies in space to encourage more dynamic dialogic encounters between performers and audience
