Rearden,1984 *From Yeomanettes to Fighter Jets* Randy Carol Goguen,2024-03-06 From Yeomanettes to Fighter Jets addresses a major element of twenty first century sea power the integration of women into all military units of the U S Navy Randy Goguen delineates the cultural

economic and political conditions as well as the technological changes that shaped this movement over the course of a century Starting with the establishment of the Yeomen F in World War I and continuing through today to address the current arguments over the registration of women for Selective Service and the reform of the military justice system Goguen describes how changes in civilian society affected the U S Navy and the role of Navy women She highlights the contributions of key women and men in the military and civilian spheres who were willing to challenge convention and prejudice to advance the integration of women and make the U S Navy a stronger institution Today women in the U S Navy have proven themselves essential to the mission success of the service They are forward deployed around the world sharing the same risks as their male counterparts Some have commanded logistics and combatant ships including aircraft carriers They fly and maintain combat and patrol aircraft and serve as crew members on ships and submarines Some hold major commands ashore and have risen to the highest echelons of navy leadership Integrating women into the U S Navy has been a long and often contentious process as women strived to overcome resistance imposed by prevailing cultural and institutional norms and patriarchal prejudices Goguen a retired naval reserve officer who holds a PhD in military history from Temple University has written a comprehensive and up to date history of women s integration into the Navy She argues that throughout the process the decisive force driving progress was exigency That exigency took various forms two world wars communist expansionism in the Cold War the ending of the draft and the establishment of the All Volunteer Force as well as the political pressures posed by social change especially the mid twentieth century feminist and contemporary Me Too movements Despite a deeply ingrained institutional resistance cultivated within an insular often misogynist sea going subculture today s U S Navy could not meet its mission requirements without women Goguen asserts Exigency is the mother of integration History of the Office of the Secretary of Defense: The McNamara ascendancy, 1961-1965 , *The Pennsylvania Railroad, Volume 2* Albert J. Churella, 2023-11-21 By 1933 the Pennsylvania Railroad had been in existence for nearly ninety years During this time it had grown from a small line struggling to build west from the state capital in Harrisburg to the dominant transportation company in the United States In Volume 2 of The Pennsylvania Railroad Albert J Churella continues his history of this giant of American transportation At the beginning of the twentieth century the Pennsylvania Railroad was the world s largest business corporation and the nation s most important railroad By 1917 the Pennsylvania Railroad like the nation itself was confronting a very different world The war that had consumed Europe since 1914 was about to engulf the United States Amid unprecedented demand for transportation the federal government undertook the management of the railroads while new labor policies and new regulatory initiatives coupled with a postwar recession would challenge the company like never before Only time would tell whether the years that followed would signal a new beginning for the Pennsylvania Railroad or the beginning of the end The Pennsylvania Railroad The Age of Limits 1917 1933 represents an unparalleled look at the history the personalities and the technologies of this iconic American company in a period that marked the shift from building an

empire to exploring the limits of their power *The CIO's Left-led Unions* Steven Rosswurm, 1992 The American labor movement seemed poised on the threshold of unparalleled success at the beginning of the post World War II era Fourteen million strong in 1946 unions represented 35 percent of non agricultural workers and federal power insured collective bargaining rights The contrast with the pre war years was strongest for those workers who retained vivid memories of the 1920s and early 1930s Then the labor movement lacked government legitimacy and at the worst point of the Great Depression the union movement barely enrolled 5 percent of the non farm workforce one out of every four workers lacked a job Now the future seemed to hold unlimited possibilities *Report of Her Majesty's Commissioners Appointed to Inquire Into the Revenues and Management of Certain Colleges and Schools, and the Studies Pursued and Instruction Given Therein* Great Britain. Commissioners Appointed to Inquire into the Revenues and Management of Certain Colleges and Schools, and the Studies Pursued and Instruction Given Therein, 1864
