Jarvis, 2016 Although sexual violence directed at both females and males is a reality in many on going conflicts throughout the world today accountability for the perpetrators of such violence remains the exception rather than the rule While awareness of the problem is growing more effective approaches are urgently needed for the investigation and prosecution of conflict related sexual violence crimes Upon its establishment in 1993 the Office of the Prosecutor OTP of the International Criminal Tribunal for the Former Yugoslavia ICTY began the challenging task of prosecuting the perpetrators of conflict

related sexual violence crimes alongside the many other atrocities committed during the conflicts in the former Yugoslavia. This book documents the experiences, achievements, challenges, and fundamental insights of the OTP in prosecuting conflict-related sexual violence crimes at the ICTY over the past two decades. It draws on an extensive dossier of OTP documentation, court filings, trial exhibits, testimony, ICTY judgements, and other materials, as well as interviews with current and former OTP staff members. The authors provide a unique analytical perspective on the obstacles faced in prioritizing investigating and prosecuting conflict-related sexual violence crimes. While ICTY has made great strides in developing international criminal law in this area, this volume exposes the pressing need for determined and increasingly sophisticated strategies in order to overcome the ongoing obstacles in prosecuting conflict-related sexual violence crimes. The book presents concrete recommendations to inform future work being done at the national and international levels, including that of the International Criminal Court, international investigation commissions, and countries developing transitional justice processes. It provides an essential resource for investigators and criminal lawyers, human rights fact finders, policy makers, rule of law experts, and academics.

Transitional Justice and the Criminal Responsibility of Judges Claudia Cárdenas Aravena, Jaime Couso Salas, Florian Jeßberger, Milan Kuhli, 2025-05-09. This collective volume delves into the criminal responsibility of judges under authoritarian regimes, with case studies from Germany, Argentina, and Chile, examining their involvement in criminal human rights abuses and failures to protect victims from such crimes. Through comparative analysis, this volume offers insights into the legal and doctrinal challenges of prosecuting judicial involvement in crimes such as murder, judicial murder, kidnapping, unlawful detention, and torture. Bridging a gap in transitional justice and international criminal law literature, it focuses on the rarely explored criminal responsibility of judges beyond judicial misconduct. In doing so, it provides readers with a deeper understanding of judicial roles in authoritarian regimes and the complex legal standards involved in prosecuting such cases. It also informs the ongoing discourse on judicial accountability and the potential legal implications for judges in contemporary contexts. Transitional Justice and the Criminal Responsibility of Judges is ideal for students, scholars, and civil servants or practitioners working in the domestic or the international criminal justice system.

Pesticides Documentation Bulletin, 1967. Pluralism in International Criminal Law Elies van Sliedregt, Sergey Vasiliev, 2014-02. International crimes are mostly prosecuted at the national level, and domestic judges have to contend with a plethora of divergent judgments from international tribunals and other domestic courts. This book assesses the impact of this legal pluralism, exploring whether divergence can be accepted as a regular feature of international criminal justice.
