Ethics and vector-borne diseases ,2020-05-31 QAnon Marc-André Argentino,2025-07-18 This book explores the QAnon movement by examining its history fluctuations and evolution stemming from the likelihood of multiple users behind the Q account as well as from the changes in the sociopolitical landscape since the creation of the movement It frames QAnon as a lived religion and demonstrates that it has gone through three stages of existence proto QAnon canonical QAnon and apocryphal QAnon Author Marc Andr Argentino argues that QAnon evolved into something more than a conspiracy theory and demonstrates through a comparative analysis that QAnon is more akin to a new religious movement in particular a hyper real religion He explores the role of gender and women in the QAnon movement followed by an examination of how the QAnon conspiracy theories have legitimized and coordinated targeted gender based violence The book provides evidence of the nexus of QAnon and ideologically motivated violent extremism and criminality Finally it examines the evolution of QAnon after the January 6th insurrection the loss of the 2020 election by Donald Trump and the disappearance of Q This volume will be of great interest to researchers of conspiracy theories new religious movements American politics and extremism

Daily Report, Foreign Radio Broadcasts United States. Central Intelligence Agency,1962 **The Evolution of Strategy** Beatrice Heuser,2010-10-14 Is there a Western way of war which pursues battles of annihilation and single minded military victory Is warfare on a path to ever greater destructive force This magisterial account answers these questions by tracing the history of Western thinking about strategy the employment of military force as a political instrument from antiquity to the present day Assessing sources from Vegetius to contemporary America and with a particular focus on strategy since the Napoleonic Wars Beatrice Heuser explores the evolution of strategic thought the social institutions norms and patterns of behaviour within which it operates the policies that guide it and the cultures that influence it Ranging across technology and warfare total warfare and small wars as well as land sea air and nuclear warfare she demonstrates that warfare and strategic thinking have fluctuated wildly in their aims intensity limitations and excesses over the past two millennia The Wilson-Johnson Correspondence, 1964-69 Simon C. Smith,2016-03-03 Less than a year after the assassination of President Kennedy brought Lyndon B Johnson to the White House Harold Wilson became British Prime Minister Over the next four years the two men governed their countries through unprecedented crises both domestic and international To provide a better understanding of the transatlantic relationship this volume provides for the first time all the correspondence between Wilson and Johnson from the time Wilson became Prime Minister in October 1964 until Johnson stepped down as President in January 1969 This period witnessed Britain s accelerated retreat from Empire and the United States correspondingly active role in confronting communist influence across the globe The letters between Wilson and Johnson reveal the difficulties they faced during this period of transition In particular the issue of the Vietnam War looms large as Wilson s refusal to commit British forces and his sponsorship of peace initiatives served to place severe strain on

relations between the two men Other significant topics which re occur in the correspondence include American attempts to stiffen Britain s resolve to preserve the value of the pound the almost continual British defence reviews the future of the British Army on the Rhine the French withdrawal from NATO the 1967 Arab Israeli War East West relations Britain s relations with the EEC the Prague Spring and the devaluation of sterling Drawing on material from the Johnson Presidential Library Wilson s private papers at the Bodleian Library and the National Archives of both the United States and the United Kingdom this collection provides a direct insight into Anglo American relations at a pivotal moment For whilst the United States was undoubtedly a superpower on the rise and Britain a declining influence on the world stage the letters reveal that Johnson was eager for international allies to demonstrate to the American people that the US did not stan **Open Data**

Exposed Bastiaan van Loenen, Glenn Vancauwenberghe, Joep Crompvoets, 2018-10-25 The main objectives of this book are to expose key aspects that have a relevance when dealing with open data viewed from different perspectives and to provide appealing examples of how open data is implemented worldwide The concept of open data as we know it today is the result of many different initiatives both of a legislative and non legislative nature and promoted by a wide range of actors Numerous regulatory antecedents to foster the concept of open data and embed it in national and international policy agendas have been undertaken on both sides of the Atlantic as well as at a supranational level The book highlights a number of the efforts made to promote open data in Europe Asia and the United States In addition to new insights practical guidance and multiple disciplinary perspectives on open data the book also addresses the transformation of current developments towards open data which may be referred to as the democratisation of data This book will support open data practitioners as well as open data scholars in their endeavours to promote open data implementation and research Bastiaan van Loenen is associate professor and director of the Knowledge Centre Open Data at the Faculty of Architecture and The Built Environment of Delft University of Technology in the Netherlands as is Glenn Vancauwenberghe who is a post doctoral researcher and Joep Crompvoets is a professor at the Public Governance Institute of the KU Leuven in Belgium *Awakening to China's Rise*

Hugo Meijer, 2022-08-01 *Awakening to China s Rise* provides the most comprehensive analysis to date of how Europe s major powers have responded to the re emergence of China as a great power in world politics since the end of the Cold War To do so it puts forward a unique cross regional comparison of how the major European powers France Germany and the United Kingdom have confronted Chinese assertiveness both in the Asia Pacific and in Europe Firstly it analyses their response to China s increasingly muscular regional posture in the Asia Pacific through the development of diplomatic and security initiatives with partners in the region Secondly it delineates how they have confronted China s inroads into Europe looking at the measures that they have taken to tackle Chinese investments in and supply of technologies in strategic sectors such as critical national infrastructures dual use technologies and in the digital domain including Huawei s 5G networks A longstanding assumption in the IR literature has been that European foreign policies toward the People s Republic of China

have been driven by a naive and self interested focus on the economic opportunities presented by such a vast market overlooking security considerations This book challenges such common belief through a detailed examination of the policies of France Germany and the United Kingdom from 1989 to the present Its central argument is that whereas this assessment aptly characterized the first two post Cold War decades Beijing's growing assertiveness after 2009 caused the three major European powers to awaken to China's rise In the 2010s heightened threat perceptions of China coupled with increasingly competitive bilateral economic relations with the PRC have gradually and cumulatively caused the hardening of their policy goals which in turn translated into the formulation of new policy instruments to confront such a challenge To substantiate this argument the book relies on a large body of previously undisclosed primary sources including 223 interviews conducted with senior officials in Europe Berlin Brussels London Paris in the United States Washington DC and in Asia Beijing Shanghai New Delhi Seoul declassified archival documents from France the UK and Germany leaked US diplomatic cables and new data on European naval deployments

Privacy, Technology, and the Criminal Process Andrew Roberts, Joe Purshouse, Jason Bosland, 2023-07-28 This collection considers the implications for privacy of the utilisation of new technologies in the criminal process In most modern liberal democratic states privacy is considered a basic right Many national constitutions and almost all international human rights instruments include some guarantee of privacy Yet privacy interests appear to have had relatively little influence on criminal justice policy making The threat that technology poses to these interests demands critical re evaluation of current law policy and practice This is provided by the contributions to this volume They offer legal criminological philosophical and comparative perspectives The book will be of interest to legal and criminological scholars and postgraduate students Its interdisciplinary methodology and focus on the intersection between law and technology make it also relevant for philosophers and those interested in science and technology studies

Local Ownership and Security Sector Reform Timothy Donais, 2008 The notion of local ownership has emerged in recent years as part of the contemporary commonsense of security sector reform SSR While the argument that externally driven reform processes are unsustainable is now widely accepted the principle of local ownership has proven difficult to both define and operationalise With contributions by leading practitioners both insiders and outsiders Local Ownership and Security Sector Reform subjects the broader issue of local ownership to critical scrutiny furthers the debate on what local ownership is and why it matters and explores how ownership
