Improving National Education Systems After COVID-19 Nuno Crato,Harry Anthony Patrinos,2024-10-14 This open access
book compares and analyses the results in twelve countries of the two latest international student assessments Progress in
International Reading Literacy Study 2021 PIRLS and the Programme for International Student Assessment 2022 PISA and
tries to disentangle the effects of the pandemic from the long term trends in education It is one of the first or maybe the first
published volumes to provide a global assessment of the devastating impact of the COVID 19 pandemic on student learning
as measured by independent international comparative surveys The 12 countries discussed in this volume represent a wide
variety of educational systems including Chile Ecuador England Estonia Italy the Netherlands Poland Portugal South Africa
Spain and the United States It compiles diverse scenarios including countries that are high performers countries that
perform at the OECD mean and countries that are struggling to attain the OECD average Each country has its history that
reflects efforts to cope with pandemic school closures and to improve educational achievement A major topic discussed in
this edited volume is related to understanding the diverse circumstances for the variations in results within different
countries Why did learning loss in specific locations How much learning was lost Why is a country continuously declining
Why is another country constantly improving Why is there higher or less levels of inequality How is a country regularly
improving with an outdated curriculum Which policies have worked and which ones have not What can we do now This book
is a valuable contribution to answer these concerns based on a diverse sample of countries and research questions Public
