- 1 Analyse two benefits to VBH of its approach to human resource management (HRM).

Human Resource Management is the effective management of an organisation's employees to help the business gain a competitive advantage from this strategic approach. HRM strategy may be hard or soft. Hard HRM is an approach to managing employees that focuses on cutting costs. Where as soft HRM is an approach to managing employees that focuses on their development so that they reach self-fulfilment and are motivated to work hard and stay with the business. VBH uses soft HRM approach and VBH employees have flexible employment contract which means that they allow their employees to have more control over their work-life balance, including options to work from home, flexible start and finish times, to work part-time or to job share. The benefits to VBH of these are that they will be able to attract well-qualified recruits which will improve customer service and the workforce will be motivated to work with VBH. Since they provide their employees with flexible employment contract, the employees can have more choice over working hours and can plan their personal activities accordingly, they have great freedom to achieve work-life balance. Thus this will lower

Ecology, Sustainable Development and Accounting Seleshi Sisaye, 2015-08-11 Accounting literature has viewed sustainability in terms of social economic and environmental performances There have been concerns that the relationship between sustainability accounting and organizational performance cannot be explained unless we can deduce patterns of administrative behaviour that chronicle management practices Ecology Sustainable Development and Accounting argues that despite the broader social and economic development dimensions of sustainability and the limitations of its extension to corporate and organizational behaviour an ecological framework is capable of providing the overall societal and community chronologies that describe corporate sustainable operations Drawing examples from international development and federal government organizations this book documents the link between ecology corporate sustainable development and sustainability accounting and reporting It draws together the literature from several disciplines to elaborate the contribution of the ecological approach to sustainable development in the accounting literature This book will be of particular interest to students academics and practitioners in the areas of environmental studies ecological economics sustainable development studies and social and environmental accounting The sociological and anthropological perspectives make this book the first of its kind to apply the population ecology of sociology to both the sustainability and accounting literature *Towards Globo Sapiens* Patricia Kelly, 2008-01-01 Global and local studies show that the present growth based approach to development is unsustainable If we are serious about surviving the 21st century we will need graduates who are not simply globally portable or even globally competent but also wise global citizens Globo sapiens This book contributes to what educators need to know do and be in order to support transformative learning The book is based on work with large socially and culturally diverse first year engineering students at an Australian university of technology It shows that reflective journals with appropriate planning and support can be one pillar of a transformative pedagogy which can encourage significant and even transformative attitude change in relation to gender culture and the environment It also offers evidence of improved communication skills and other tangible changes to counter common criticisms that such work is airy fairy and irrelevant The author combines communication theory with critical futures thinking to provide layered understandings of how transformative learning affected students thinking learning and behaviour So the book is both a case study and a detailed response to the personal and professional challenges that educators all over the world will face as they try to guide students in sustainable directions *Africa Insight* ,2003 *Technology, Globalization, and Sustainable Development* Nicholas A. Ashford, Ralph P. Myeong,2018-09-21 This book is a printed edition of the Special Issue Sustainable Governance in Northeast Asia Challenges for Innovation Frontier that was published in Sustainability Community Engagement in Higher Education W. James Jacob,Stewart E. Sutin,John C. Weidman,John L. Yeager,2015-06-17 There seems to be renewed interest in having universities and other higher education institutions engage with their communities at the local national and international levels But what is community engagement Even if this interest is genuine and widespread there are many different concepts of community service outreach and engagement The wide range of activity encompassed by community engagement suggests that a precise definition of the community mission is difficult and organizing and coordinating such activities is a complex task This edited volume includes 18 chapters that explore conceptual understandings of community engagement and higher education reforms and initiatives intended to foster it Contributors provide empirical research findings including several case study examples that respond to the following higher education community engagement issues What is the community and what does it need and expect from higher education institutions Is community engagement a mission of all types of higher education institutions or should it be the mission of specific institutions such as regional or metropolitan universities technical universities community colleges or indigenous institutions while other institutions such as major research universities should concentrate on national and global research agendas and on educating internationally competent researchers and professionals How can a university be global and at the same time locally relevant Is it or should it be left to the institutions to determine the scope and mode of their community engagement or is a state mandate preferable and feasible If community engagement or community service are mandatory what are the consequences of not complying with the mandate How effective are policy mandates and university engagement for regional and local economic development What are the principal features and relationships of regionally engaged universities Is community engagement to be left to faculty members and students who are particularly socially engaged and locally embedded or is it or should it be made mandatory for both faculty and students How can community engagement be better integrated with the other two traditional missions of the university research and teaching Cover image The Towering Four fold Mission of Higher Education by Natalie Jacob
