A Global History of War Gérard Chaliand,2014-11-17 While many books examine specific wars few study the history of war worldwide and from an evolutionary perspective A Global History of War is one of the first works to focus not on the impact of war on civilizations but rather on how civilizations impact the art and execution of war World renowned scholar G rard Chaliand concentrates on the peoples and cultures who have determined how war is conducted and reveals the lasting historical consequences of combat offering a unique picture of the major geopolitical and civilizational clashes that have rocked our common history and made us who we are today Chaliand s questions provoke a new understanding of the development of armed conflict How did the foremost non European empires rise and fall What critical role did the nomads of the Eurasian steppes and their descendants play Chaliand illuminates the military cultures and martial traditions of the great Eurasian empires including Turkey China Iran and Mongolia Based on fifteen years of research this book provides a novel military and strategic perspective on the crises and conflicts that have shaped the current world order

Teaching English Language Learners in Secondary Subject Matter Classes Yu Ren Dong,2019-08-01 This book is for secondary subject matter teachers and administrators who work with English language learners ELLs in subject matter classes It is also for college professors who prepare pre service teachers to work with those students The book brings together insights from linguistic socio cultural educational cognitive developmental perspectives of what it means for ELLs to learn both English and subject matter knowledge in English as a second language It delineates unique challenges that ELLs experience offers ELLs learning stories and suggests concrete strategies with classroom teaching examples across academic disciplines The 2nd edition broadens the scope of the 1st edition in several aspects Specifically it includes two chapters about secondary ELLs previous educational experiences in their home countries a chapter on subject matter lesson planning with ELLs in mind with teacher collaborative strategies and more principle based and field tested effective instructional and assessment strategies for working with ELLs

History Lessons S.G. Grant,2014-04-04 In this book extended case studies of two veteran teachers and their students are combined with the extant research literature to explore current issues of teaching learning and testing U S history It is among the first to examine these issues together and in interaction While the two teachers share several similarities the teaching practices they construct could not be more different To explore these differences the author asks what their teaching practices look like how their instruction influences their students understandings of history and what role statewide exams play in their classroom decisions History Lessons Teaching Learning and Testing in U S High School Classrooms is a major contribution to the emerging body of empirical research in the field of social studies education chiefly in the subject area of history which asks how U S students make sense of history and how teachers construct their classroom practices Three case study chapters

are paired with three essay review chapters intended to help readers analyze the cases by looking at them in the context of the current research literature Two concluding chapters extend the cases and analyses the first looks at how and why the teachers profiled in this book construct their individual teaching practices in terms of three distinct but interacting sets of influences personal organizational and policy factors the second explores the prospects for promoting what the author defines as ambitious teaching and learning Many policymakers assume that standards based reforms support the efforts of ambitious teachers but until we better understand how they and the students in their classes think and act that assumption is hollow at best This book is a must have for faculty and students in the field of social studies education and broadly relevant across the fields of curriculum studies and educational policy

International Guide to Student Achievement John Hattie, Eric M. Anderman, 2013-01-17 The *International Guide to Student Achievement* brings together and critically examines the major influences shaping student achievement today There are many often competing claims about how to enhance student achievement raising the questions of What works and What works best World renowned bestselling authors John Hattie and Eric M Anderman have invited an international group of scholars to write brief empirically supported articles that examine predictors of academic achievement across a variety of topics and domains Rather than telling people what to do in their schools and classrooms this guide simply provides the first ever compendium of research that summarizes what is known about the major influences shaping students academic achievement around the world Readers can apply this knowledge base to their own school and classroom settings The 150 entries serve as intellectual building blocks to creatively mix into new or existing educational arrangements and aim for quick easy reference Chapter authors follow a common format that allows readers to more seamlessly compare and contrast information across entries guiding readers to apply this knowledge to their own classrooms their curriculums and teaching strategies and their teacher training programs

State Assessment Policy and Practice for English Language Learners Charlene Rivera, Eric Collum, 2014-05-12 *State Assessment Policy and Practice for English Language Learners* presents three significant studies each examining a different aspect of states strategies for including English language learners in state assessments an Analysis of State Assessment Policies Regarding Accommodations for English Language Learners a Survey and Description of Test Translation Practices and an Examination of State Practices for Reporting Participation and Performance of English Language Learners in State Assessments With the rise in population of English language learners and the subsequent stepped up legislative focus on this student population over the past decade states have been challenged to include English language learners in state assessment programs Until now the little data available on states policies and practices for meeting this challenge has been embedded in various reports and professional journals and scattered across the Internet This volume offers for the first time a focused examination of states assessment policies and practices regarding English language learners The three studies were supported by OELA the U S Department of Education s Office of English Language Acquisition Language Enhancement

and Academic Achievement for Limited English Proficient Students State Assessment Policy and Practice for English Language Learners is of interest to researchers and professionals involved with the assessment of English language learners state and district level policy makers and academics teacher educators and graduate students in a number of fields including educational and psychological assessment testing and measurement bilingual education English as a second language and second language acquisition

Meeting the Challenges to Measurement in an Era of Accountability Henry Braun, 2016-01-29 Under pressure and support from the federal government states have increasingly turned to indicators based on student test scores to evaluate teachers and schools as well as students themselves The focus thus far has been on test scores in those subject areas where there is a sequence of consecutive tests such as in mathematics or English language arts with a focus on grades 4-8 Teachers in these subject areas however constitute less than thirty percent of the teacher

workforce in a district Comparatively little has been written about the measurement of achievement in the other grades and subjects This volume seeks to remedy this imbalance by focusing on the assessment of student achievement in a broad range of grade levels and subject areas with particular attention to their use in the evaluation of teachers and schools in all It addresses traditional end of course tests as well as alternative measures such as portfolios exhibitions and student learning objectives In each case issues related to design and development psychometric considerations and validity challenges are covered from both a generic and a content specific perspective The NCME Applications of Educational Measurement and Assessment series includes edited volumes designed to inform research based applications of educational measurement and assessment Edited by leading experts these books are comprehensive and practical resources on the latest developments in the field The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives 4.0 license
