The Iraqi Predicament Tareq Y. Ismael, Jacqueline S. Ismael, 2004-03-20 On February 15 2003 over 6 million people around the world marched in protest against a threatened war on Iraq In the light of these remarkable events and the conflict that followed it is now more important than ever to properly assess Iraq's role in world politics This book provides a history of Iraq an assessment of its position in the broader political landscape and a moving account of the day to day reality experienced by the Iraqi people The authors look at Iraq's and Saddam Hussein's relations and influence in the region of the greater Middle East They examine the role of the UN sanctions and warfare explaining the impact this has had on Iraq's civil population and related humanitarian questions They assess American policy towards Iraq and how this has changed since September 11 setting it within the broader context of America's involvement in the Middle East Finally they look at social policy within Iraq explaining how the internal welfare system has collapsed since the Gulf War and examining the continuing effects of depleted uranium

Zimbabwe International Monetary Fund. African Dept., 2025-10-02 After facing significant macroeconomic volatility in recent decades Zimbabwe has recently experienced a degree of stability thanks to tighter policies The halting of quasi fiscal operations and monetary financing by central bank have helped significantly reduce inflation and exchange rate pressures Growth has recovered as extreme weather shocks subsided and terms of trade significantly improved But challenges remain from fiscal financing pressures with very limited access to official external financing and the accumulation of domestic arrears low monetary policy credibility a highly dollarized monetary system low reserve buffers a persistent gap between the official and parallel exchange rates and economic governance vulnerabilities

Forty Years of Sport and Social Change, 1968-2008 Russell Field, Bruce Kidd, 2013-09-13 1968 was a year of protest in civil society Prague Paris Chicago and a year of protest in sport After a world wide campaign the anti apartheid movement succeeded in barring South Africa from the Olympic Games while US athletes from the Olympic Project for Human Rights used the medals podium to decry the racism of North America Meanwhile students in Mexico demonstrated against social priorities in Mexico the host of the 1968 Games

These events contributed significantly to the rejection of the idea that sports are apolitical and stimulated the scholarly study of sport across the social sciences. Leading up to the Beijing Olympic Games, similar dynamics were played out across the globe while a campaign was underway to boycott the Olympics. The volume *To Remember is to Resist* came out of a three-day conference on sports, human rights, and social change hosted by the University of Toronto forty years after Mexico and eighty days before the Beijing Opening Ceremony. The contributions to this volume capture the memories of activists who were on the ground using sport as a site for the struggle for human rights and provide scholarly examinations of past and current human rights movements in sport. This book was previously published as a special issue of *Sport in Society*.
