Sport emerged as a business, a spectacle, and a performance and gaming organized itself around sporting culture. Examining the underexplored intersection of sport, literature, and culture, this collection situates sport within multiple contexts including religion, labor, leisure, time, politics, nationalism, gender, play, and science. A poetics of literature and culture of sport swelled during the era, influencing artists such as John Collet and writers including Lord Byron, Jonathan Swift, and Henry Fielding. This volume brings together literary scholars and historians of sport to demonstrate the ubiquity of sport to eighteenth-century life, the variety of literary and cultural representations of sporting experiences, and the evolution of sport from rural pastimes to organized, regular events of national and international importance. Each essay offers in-depth readings of both material practices and representations of sport as they relate to among other subjects: recreational sports, the Cotswold games, clothing, women, archers, tennis, celebrity athletes, and the theatricality of boxing. Taken together, the essays in this collection offer valuable multiple perspectives on reading sport during the century when sport became modern. **New York Magazine**, 1992-02-24 New York magazine was born in 1968 after a run as an insert of the New York Herald Tribune and quickly made a place for itself as the trusted resource for readers across the country.
