Joint Committee on Atomic Energy,1959 Reviews AEC coordination with states in establishing nuclear materials safety standards control procedures and waste disposal **China and the Geopolitics of Rare Earths** Sophia Kalantzakos,2018 Rare earths are elements that are found in the Earth s crust

and are vital ingredients for the production of a wide variety of high tech defense and green technologies everything from iPhones and medical technologies to wind turbines efficiency lighting smart bombs and submarines While they are not particularly rare in availability they are difficult and expensive to mine Yet China has managed to gain control over an estimated 97 percent of the rare earth industry since the 1990s through cheap production high export taxes and artificial limitations of supply Rare earths and China s monopoly over them became international news after China unofficially curtailed exports to Japan the United States and Europe in 2010 This embargo followed a collision between Chinese and Japanese boats in the East China Sea a locus of geopolitical and economic tension between the two countries Although the World Trade Organization forced China to scrap its restrictions it still holds a stranglehold over these elements that are so critical to the economic and security interests of the United States and its allies In this book Sophia Kalantzakos argues that the 2010 rare earth crisis signaled more than just a trade dispute Rather it raises questions about China s use of economic statecraft and must be regarded as a part of the larger discourse of global power relations Importantly she also argues that the failure of political actors in major industrial nations to enact comprehensive and effective policy solutions or the scientific and business communities to devise sustainable rare earth production outside of China points to future resource competition Focusing on China s monopoly over the rare earth industry China and the Geopolitics of Rare Earths examines the impacts of growing worldwide resource competition and the complexities policymakers face as they develop strategies and responses in an increasingly globalized world

Prostitution in the Community

Sarah Kingston,2013-10-15 Prostitution often causes significant anxiety for communities These communities have been known to campaign against its presence in their neighbourhoods seeking the removal of street sex workers and their male clients Although research and literature has begun to explore prostitution from the standpoint of the community there is no comprehensive text which brings together some of the current literature in this area This book aspires to cast light on some of this work by exploring the nature extent and visibility of prostitution in residential communities and business areas considering the legal and social context in which it is situated and the community responses of those who live and work in areas of sex work This book aims to examine current literature on the impacts of prostitution in residential areas and considers how different policy approaches employed by the police and local authorities have mediated and shaped the nature of sex work in different communities It explores what communities think about prostitution and those involved as well as studies the techniques and strategies communities have utilized to take action against prostitution in their neighbourhoods This book will also demonstrate the diversity of public attitudes action and reaction to prostitution in the community This book is a useful contribution for academics and researchers in the fields of Criminology and Sociology who wish to understand current policy initiatives surrounding the issue of prostitution in local national and international community settings
